

Enabled and Efficient Organisation

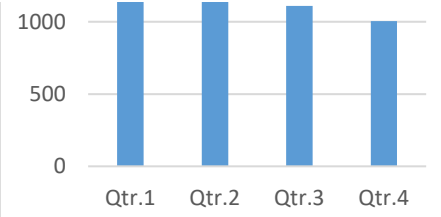

Our outcome - For both councils to be successful in the delivery of all the strategic outcomes, we need an enabled and efficient organisation - the right people doing the right things, in the right way, at the right time, for the right reasons - making best use of our organisation's resources by using agile ways of working.

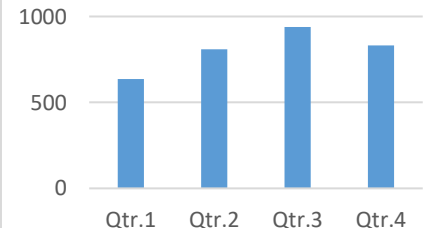

What success looks like? Our organisation will be able to respond and adapt quickly to changes in the external environment and our officers and members will have developed the right skills, attitude and capability to operate in an ever-changing environment. We have an outcome-based focus and can demonstrate what we are delivering for our districts and the wider area. We have provided the means by which people can answer their own queries without needing to contact us, so that our reducing resources are targeted at those most in need of our assistance. We have governance arrangements in place that enable us to operate effectively in the environment that we are working in, and we can demonstrate that we are making intelligence-based, timely decisions that take into account the Council's risk appetite. The Council is financially sustainable in the medium/long term.

	April - June 2017	July - September 2017	October - December 2017	January - March 2018
Main Achievements	1. Production of the End of Year Report completed.	1. Launch of new Suffolk Observatory on 18 September, very positive initial feedback, workshops now being held across the County to raise awareness. 2. The Performance Framework continues to be developed between Officers and lead Councillors. This includes the publication of the 3. Successful opening of Stowmarket Customer Services on 11 September. During this day we took the second highest amount of calls on our opening day up to that date in September. 4. Both the Licensing and Homelessness teams are utilising booked slots in the public interview room at Stowmarket 5. Land Charges have instigated a new system whereby our officers in Stowmarket Customer Services can access an electronic folder for personal searches allowing them to assist customers in either taking their own photos of the documents or having them printed off.	1. The move of the Council headquarters was completed in November. 2. The successful roll-out of the Skype for Business enables staff to make and receive calls from their laptops at home, in the office or out and about in the districts. This also corresponded with the roll-out of 120 laptops to staff so they can work flexibly from any location. 3. There has been an upgrade to the finance system and the transfer of the HR system to Suffolk County Council.	1. An electronic monitoring tool has been developed to enable Customer Services to record additional information relating to customers using the face 2 face facility. 2. A staff survey was completed in March with views being sought on a range of matters including jobs, teams and organisation as well as training and development opportunities, agile working and internal communications.
Impact on communities / the way we work	1. This document highlights how we have delivered against the JSP in year.	1. Increased knowledge on the health of the Districts/County enabling evidence based decision making. 2. The publication of the document gives visibility for our customers and residents to be able to hold us to account. 3. Customers being seen from 9am with phones operational from 10am. 4/5. Maintaining a presence within our districts, accessible to customers, providing enhanced services.	1. Business continuity was maintained during the move to Endeavour House, with the communities see no impact on the service provision. 2. Staff have benefited from the enhanced IT packages enabling them to work agilely across the District. 3. Partnership working provides the opportunity to share best practice and developing our knowledge and understanding.	1. The development of the survey will enable the Council to gain a greater understanding of the needs of the communities and align the offer accordingly. 2. The staff survey will provide the organisation with a baseline of information about how staff are feeling at this moment of time and will be used to make some positive changes within the organisation.
