

Public Document Pack

COMMITTEE: **BABERGH SCRUTINY COMMITTEE**

VENUE: **Council Chamber, Council Offices, Corks Lane, Hadleigh**

DATE: **Wednesday, 22 March 2017
9.30 am.**

Members

Peter Burgoyne
Alan Ferguson
Barry Gasper
Kathryn Grandon

Bryn Hurren
Mark Newman
John Nunn
Fenella Swan

The Council, members of the public and the press may record/film/photograph or broadcast this meeting when the public and the press are not lawfully excluded. Any member of the public who attends a meeting and objects to being filmed should advise the Committee Clerk.

AGENDA

PART 1

ITEM	BUSINESS
------	----------

Page(s)

1 **SUBSTITUTES AND APOLOGIES**

Any Member attending as an approved substitute to report giving his/her name and the name of the Member being substituted.

To receive apologies for absence.

2 **DECLARATION OF INTERESTS**

Members to declare any interests as appropriate in respect of items to be considered at this meeting.

3 **CONFIRMATION OF MINUTES**

1 - 2

To confirm and sign the Minutes of the meeting held on 30 January 2017 as a correct record (attached).

4 **PETITIONS**

The Corporate Manager – Democratic Services to report, in accordance with the Council's Petition Scheme, the receipt of any petitions submitted to the Chief Executive.

ITEM	BUSINESS	<u>Page(s)</u>
5	<u>QUESTIONS BY THE PUBLIC</u> To consider questions from, and provide answers to, the public in relation to matters which are relevant to the business of the meeting and of which due notice has been given in accordance with the Committee and Sub-Committee Procedure Rules.	
6	<u>QUESTIONS BY COUNCILLORS</u> To consider questions from, and provide answer to, Councillors on any matter in relation to which the Committee has powers or duties and of which due notice has been given in accordance with the Committee and Sub-Committee Procedure Rules.	
7	<u>PAPER S122 - HOUSING REVENUE ACCOUNT 30 YEAR BUSINESS PLAN</u> Report by the Interim Strategic Director attached.	3 - 22

For further information on any of the Part 1 items listed above, please contact Committee Services on 01473 826652 or via e-mail at Committees@baberghmidsuffolk.gov.uk.

Agenda Item 3

BABERGH DISTRICT COUNCIL

BABERGH SCRUTINY COMMITTEE

MINUTES OF A MEETING OF THE BABERGH SCRUTINY COMMITTEE HELD IN
THE COUNCIL CHAMBER, COUNCIL OFFICES, CORKS LANE, HADLEIGH ON
MONDAY 30 JANUARY 2017

PRESENT: Mark Newman – Chairman

Peter Burgoyne
Tina Campbell
Alan Ferguson
Barry Gasper

Kathryn Grandon
Bryn Hurren
John Nunn

1 DECLARATION OF INTERESTS

None declared.

2 MINUTES

RESOLVED

That the Minutes of the meeting held on 25 January 2016 be confirmed and signed as a correct record.

3 PETITIONS

None received.

4 QUESTIONS FROM THE PUBLIC

None received.

5 QUESTIONS FROM COUNCILLORS

None received.

6 DRAFT JOINT MEDIUM TERM FINANCIAL STRATEGY AND 2017/18 BUDGET

2017/18 GENERAL FUND BUDGET UPDATE

The Assistant Director of Corporate Resources introduced Paper S87 and S99 which had been considered by the Strategy Committee on 1 December and 12 January respectively. Members were asked to consider, and comment on, the Council's draft Joint Medium Term Financial Strategy (MTFS) and 2017/18 Budget for the General Fund, Housing Revenue Account (HRA) and capital programme. It was explained that the figures would change as they are still being updated as further information becomes available from the Government. A separate Scrutiny Committee meeting is scheduled for 22 March 2017 to discuss the HRA 30 year Business Plan, before it is presented to Strategy Committee in April.

The medium term position of three scenarios was explained in terms of the weakest, medium and strongest financial positions.

During the debate Members raised questions and officers responded with the following:

- The Council needed to review the projected deficit over the coming months in order to reduce the risk and develop a plan to bridge the gap.
- The employee costs of £8 million included employers' pension contributions, National Insurance and training costs.
- Members asked whether the Transformation Fund was being used to fund projects. It was confirmed that the use of the Transformation Fund was reported to Strategy Committee as part of the regular budget monitoring reports.
- The discrepancies between the figures in Paper S87 and S99, were the result of updates following additional information being received, and the Government's announcement of the settlement figure.
- The Solar Panel Project, generated a net income of £455,000 for Babergh.
- The Revenue Support Grant is decreasing year on year, and both District Councils had a planned tariff payment to Central Government in 2019/20.
- The Pension Fund is updated triennially and the March 2016 update showed that funding levels had improved. The Pension Fund was funded to 86%, and 43.4% of the pensionable pay figure was the current contribution into the Pension Fund annually. Babergh was to reduce its pension contributions over the next 3 years by 2.5% annually to be at 36% in 2019/20.
- An options appraisal is underway to explore options for reducing public realm costs. The outcome of this exercise would be shared with Portfolio Holders initially and then with Members more widely. 9.6% inflation increase over three years for employee costs had been included in the medium term figures. This included the cost of annual increments and 1% pay award.

As a result of its scrutiny, Members accepted the recommendations approved by the Strategy Committee and recommended a plan to reduce the financial deficit.

RECOMMENDATION TO STRATEGY COMMITTEE

That a plan be put in place to reduce the financial deficit over the next year.

The business of the meeting was concluded at 10.10 a.m.

.....
Chairman

Agenda Item 7

BABERGH DISTRICT COUNCIL

From: Kevin Jones Interim Strategic Director	Report Number: S122
To: BDC SCRUTINY COMMITTEE	Date of meeting: 22 March 2017

HOUSING REVENUE ACCOUNT 30 YEAR BUSINESS PLAN

1. Purpose of Report

- 1.1 To enable Scrutiny Committee members to examine the work being undertaken to forecast the 30 year financial position of the Housing Revenue Account (HRA) for the district.
- 1.2 To appraise the Committee about recent changes made to the assumptions contained in the Housing Revenue Account business plan, the reasons for these changes and the impact the changes have had on the 30 year financial position.
- 1.3 To seek the Committee's views on work being done to create a sustainable and robust 30 year business plan for the Council's HRA.
- 1.4 To inform the Committee about the development pipeline of new homes for the Babergh HRA.
- 1.5 To set out a roadmap for the transformation of the role of local authority housing and the HRAs in light of the significant financial challenges caused by changes to Government policy, the emerging Suffolk work on housing delivery and the Government's White Paper 'Fixing our Broken Housing Market'.

2. Recommendation

- 2.1 Scrutiny committee examines and endorses the approach being taken to deliver a sustainable Housing Revenue Account 30 year Business Plan.

3. Financial Implications

- 3.1 Changes in national policy over the last few years have fundamentally impacted on HRA finance. In 2011, the Government introduced the 'self-financing' regime. As a result, Babergh DC took on an additional £83.6m of debt. A debt cap was also set at £97.9m by the Government. The Council must demonstrate that it can operate within this debt cap after having taken into account its anticipated operating environment over a 30 year period and its forecast financing requirements. The Council's current debt is £84.8m leaving a headroom of £13.1m available.
- 3.2 More recently, the Government has introduced further structural change. This includes, an annual 1% reduction in rents for the years up to 2019/20, an increase in Right to Buy discounts and welfare reform. These have all added significant extra pressure to the 30 year business plan. More detail is included in section 10.

3.3 The financial strength of the plan has deteriorated since the last review mostly due to increasing RTB sales and the resulting reduction in rental income. The capacity for Babergh's HRA to absorb the impact is challenging but manageable. Updating the assumptions used in constructing the HRA business plans has been critical for the Council.

4. Legal Implications

4.1 The plans outlined in this report are designed to maintain legal compliance.

5. Risk Management

5.1 This report is most closely linked with the Council's Significant Business Risk No. 1a – Housing Delivery. Key risks are set out below:

The risk register identifies the following risks. New mitigations have been added.

Risk Description	Likelihood	Impact	Mitigation Measures
Failure to identify detailed housing requirements for local area will undermine our ability to deliver the right homes in the right places.	2 (Unlikely)	2 (Noticeable)	Creation of joint housing strategy including strategy for HRA assets.
Failure to manage our corporate and housing assets effectively will result in diminishing value of the stock and ineffective delivery of JSP outcomes.	2 (Unlikely)	3 (Bad)	Ensure HRAs are robust and sustainable. Explore options for making most effective use of housing assets. Review housing management arrangements based on customer insight and on delivering JSP outcomes.
Failure of the Councils to respond to the external funding environment could result in the Councils' operations no longer being financially sustainable.	2 (Unlikely)	4 (Disaster)	Annual review of HRA business plans incorporating necessary changes to key assumptions. Develop and deliver mitigation measures to sustain viability.
Staff within the organisation not having the right capacity and capability to deliver the strategic priorities of the councils and to work within the wider local government system	2 (Unlikely)	3 (Bad)	Developing our understanding of operational costs and customer value. Developing a staff culture that is customer focussed and drives delivery of JSP outcomes.

6. Consultations

6.1 A presentation on the updated HRA business plan for Babergh was given to the Joint Housing Board on 20 February 2017.

6.2 The consultation and decision programme going forward at the time of writing is:

Housing Portfolio Holder Briefing	13 March 2017
BDC Scrutiny	22 March 2017
JMIB	
BDC Administration	21 March 2017
Asset and Investment Portfolio Briefing	27 March 2017
BDC Strategy committee	6 April 2017
BDC Full Council	25 April 2017

7. Equality Analysis

7.1 There are no equality and diversity implications arising directly from this report. Thorough EIAs will be conducted on any substantial changes to our management service or asset investment plans.

8. Shared Service / Partnership Implications

8.1 The radically different financial positions of the two Councils' HRAs will create challenges going forward. The options open to the Councils to deliver the best outcomes will be different and although these will be handled carefully, it will limit the extent to which future strategies can be replicated across both Councils.

9. Links to Joint Strategic Plan

9.1 Maintaining sustainable and compliant HRA business plans is fundamental to delivery of the Joint Strategic plan. HRA business planning has a key role to play in the delivery of four outcomes:

- Housing Delivery
- Community capacity and building engagement
- Assets and investment
- Enabled and efficient organisation

10. Key Information

10.1 The briefing document attached focusses on the elements that have changed since previous iterations of the business plan. It details the implications for the Council and how it is proposed to manage the impact. It includes a draft roadmap for a transformation of the role of the HRA which will be initiated by our response to the financial context, the Suffolk Housing work and the Government's white paper 'Fixing our broken housing market'.

10.2 In summary the key contextual changes that have impacted on the sustainability of the HRA Business Plan are;

Localism Act 2011

Self-financing

The Act replaced the HRA subsidy system with a system of self-financing, the most radical changes for 30 years to the way in which Councils manage their Council house finances. From April 2012, Babergh took on a share of the national housing debt calculated by the Government as its debt settlement.

Right to buy

The discount was increased to 70% of value or £77,900 whichever is the lower. This led to a substantial increase in the number of sales which will result in a significant reduction in the Council's future rental income.

New model of affordable housing

The affordable rent tenure regime sets maximum rents for this tenure at up to 80% of local market rents and applies to all new build schemes receiving grant from the Homes and Communities Agency including new council housing.

Welfare Reform Act 2012

Social rent reduction

A reduction in rents by 1% a year for four years (until 2019/20). This has a major impact on long term HRA financial planning.

Universal credit

A replacement for six means tested benefits and tax credits with one universal payment. UC will be rolled out in Babergh in late 2017/early 2018.

Spare room subsidy

A reduction in housing benefit for working age tenants who under occupy their homes. This has resulted in greater demand for one and two bedroom Council properties.

Benefit cap

A cap on the maximum households can receive in benefits to £20,000. For single people without children, the cap is £13,400.

Housing and Planning Act 2016

High income social tenants – mandatory rents (Pay to Stay)

The Act provides local authorities with the option to charge higher rents to tenants with a household income exceeding £60,000. The Council has decided not to adopt Pay to Stay.

High Value Asset Sales

The Act imposes a duty on local housing authorities to consider selling higher value homes when they become vacant. The definition of "higher value" will be clarified by regulations yet to be made. The payment will take the form of a levy, giving local authorities a choice in how they raise the funds. The money will fund housing association Right to Buy discounts and new house building. As the rules around this issue have yet to be published we have not yet included anything in our assumptions on it.

- 10.3 The work undertaken forecasts that the Babergh HRA will continue to operate within its debt cap throughout the life of the plan. The HRA maintains sufficient headroom to fund its forecast capital financing requirements including a significant development programme of new homes.
- 10.4 The Mid Suffolk HRA is not in a strong position and some operational efficiencies are required. Although there is no compelling need to make such efficiencies for Babergh it is clearly good business practice to make improvements where possible. Annual operational savings of £30,000 for 3 years from 2018/19 have been assumed.
- 10.5 A revised Babergh & Mid Suffolk Building Services (BMBS) business plan will be included alongside the final updated HRA business plan. An initial review of the BMBS plan identified some areas of concern and work is underway to revisit and verify the costs and assumptions in the plan and its future business strategy.
- 10.6 A project team has been established to understand in detail the current costs of and income from our various HRA activities from an operational perspective and to establish an approach to assessing productivity. This is a work in progress but work to date in analysing costs and productivity is included at appendix 1 of the attached document.
- 10.7 There is an absolute need for the Councils to develop an overall strategy for housing and within it the role of local authority housing going forward. This was identified during the development of the Joint Strategic Plan and continues to be a priority given the delivery of housing and the ability to meet need across existing and new housing remains a major challenge.
- 10.8 The Government's white paper provides a trigger for this work, building on our own housing strategy and alongside work already underway in the wider Suffolk space, including the Suffolk Strategic Planning and Infrastructure Framework, Suffolk Housing Proposal which will inform the NALEP new Economic Strategy and the Suffolk older persons housing strategy.
- 10.9 An initial roadmap for developing this approach is included in the attached briefing note. As part of this work it will be vital to consider
- the role of local authority housing in the overall housing market in meeting need
 - the future possible necessity to consider cross subsidy with general fund housing to deliver a sustainable local authority model
 - use of the Council's own housing assets
 - investment in new housing
 - developing new approaches to tenure so our assets are used to maximum effect
 - our relationship with residents which focuses on increased independence and pathways to employment or care.

**Babergh District Council
SCRUTINY COMMITTEE**

22 March 2017

**Housing Revenue Account
30 year Business Plan**

1. EXECUTIVE SUMMARY

The business plan explains the current financial position of the HRA and presents 5 and 30 year forecasts. It examines various scenarios to assess the impact of a shifting financial landscape and changing government policy. It also identifies the risks to the financial strength of the HRA and how the Council will manage and mitigate those risks.

Babergh District Council has ambitious plans to transform its role in meeting housing need, developing new homes, in managing its existing housing assets and supporting its tenants. And it has the financial capacity to deliver.

- The Babergh District Council HRA is in a strong position. Although financial analysis shows that the HRA faces some substantial challenges in the coming years, the underlying strength of the HRA means the Council can maintain compliance and support new building.
- Although strong, the financial position in the plan has deteriorated since the last review mostly due to increasing RTB sales and the resulting reduction in rental income.
- Regardless of the financial position, the needs and aspirations of the District's diverse communities are changing and the way the Council operates and manages its HRA must adapt in order to deliver the outcomes agreed in the Joint Strategic Plan.
- The Council has already embarked on an ambitious grant funded new build programme that will deliver 27 new homes for rent and shared ownership by 2018. The Council is currently considering a new affordable homes development strategy which will lay out a direction and methodology for the delivery of approximately 150 new build homes over the next three years. The majority of which will be for rental and managed within the HRA.
- The work that has been done to understand and measure risk and to stress test the underlying financial strength of the 30 year HRA business plan, indicates that despite the financial challenges of welfare reform and specifically Universal Credit, the 1% rent reduction, increasing right to buy sales and a potential levy on the sale of higher value assets, the Council's HRA is financially robust with the capacity to contribute to delivery of several Joint Strategic Plan outcomes.

2. BACKGROUND

2.1 JOINT STRATEGIC PLAN

Through the Joint Strategic Plan, Babergh and Mid Suffolk District Councils' vision is to create an environment where individuals, families, communities and businesses can thrive and flourish. The plan aims to deliver five strategic outcomes. The HRAs will contribute to the following four JSP outcomes.

HRA business planning has a key role to play in delivery of all four outcomes. It is fundamental to the Housing Delivery and Assets and Investments outcomes.

The business plans sit very firmly in the wider businesses of both Councils and needs to be understood in the context of the Councils':

- Housing delivery strategy
- Joint local plan
- Assets and investment strategy
- Joint Affordable Homes Development strategy
- Public access and accommodation strategy (All Together programme)

And the:

- Suffolk Strategic Planning and Infrastructure Framework
- Suffolk Housing Proposal which will inform the NALP new Economic Strategy
- Suffolk older persons housing strategy.

2.2 FUTURE VISION FOR HOUSING

The Government's white paper "Fixing our broken housing market" published in February 2017 evidenced the "broken" nature of the UK's housing market and identified the root cause as insufficient new home building over decades.

Although the White Paper was light on detail around substantial change to the housing market and did not, for example, modify the current approach to Council borrowing or rent setting, it does present an opportunity for the Councils to reconsider the long term role of the HRAs in delivering the outcomes described in the Joint Strategic Plan (JSP).

This is timely given the work already underway in the wider Suffolk space around broad housing strategy, identifying the role local authorities will play in increasing overall delivery as well as influencing what is delivered and where and the need for the Councils to reimagine the role their housing assets will play in meeting future need.

Whatever future strategy is adopted, we will need to test how far the Councils' will want to continue being landlords and how the Councils will deliver the best service at the lowest cost, manage within the statutory financial framework whilst maximising provision of new or reconfigured housing for future and existing residents. We need to continue and strengthen the move away from a generic, paternalistic approach with our tenants to one that is much closer aligned to delivery of JSP outcomes.

This means a renewed focus on the role of the Councils' housing, increasing income, and improving performance, efficiency, productivity and value for money.

The Councils recognise that council housing residents have individual needs and requirements and that this demands intelligent services tailored to different customer segments. Much good work is already underway, for example, in the way the Council deals with income management through use of customer insight to drive a resident focussed approach that is efficient and effective.

New ways of working will need to be devised that will enable us to target our limited resources at residents that need our help most at a particular point in their lives. We will need to extend use of new technology and financial tools to enable us to better understand our portfolio and our residents and what they value in order to make us more cost effective and create additional capacity to deliver our priorities for the HRA.

2.3 DRAFT ROADMAP

BMBS Review	March 2017
B&MSDC housing strategy	May 2017
NALEP economic strategy	May 2017
Suffolk housing proposal	May 2017
Government white paper response	May 2017
Suffolk Strategic Planning and Infrastructure Framework	Summer 2017
Review of the role of the HRA	Summer 2017
B&MSDC Supported Living review	Autumn 2017
Suffolk older persons housing strategy	Autumn 2017

2.4 LEGISLATIVE FRAMEWORK

There have been several legislative changes in recent years that have had an impact on the sustainability of Council's HRA business plan.

The changes and the impacts are outlined below. Following sections of this briefing deal with our response to the changes, how we propose to mitigate the impact and how we propose to maintain a sustainable business plan over the full 30 year period.

Localism Act 2011

Self-financing

The Act replaced the HRA subsidy system with a system of self-financing, the most radical changes for 30 years to the way in which Councils manage their Council house finances. From April 2012, Babergh Suffolk took on a share of the national housing debt calculated by the Government as its debt settlement. The self-financing debt settlement figure was £83.6m. Babergh's total maximum loan portfolio became £97.9m (the debt cap). The current debt is £84.8m leaving a headroom of £13.1m.

The introduction of self-financing required the Council to take a long term strategic approach to its finances using a 30 year business plan. The plans must take into account the environment in which the Council is operating. It must be robust and sustainable over a 30 year period having taken into account reducing Government subsidy and its requirements to finance:

- The housing service
- Investment and maintenance of its existing assets
- New homes development

Right to buy

The discount was increased to 70% of value or £77,900 whichever is the lower. This led to a substantial increase in the number of sales which will result in a significant reduction in the Council's future rental income.

New model of affordable housing

The affordable rent tenure (ART) regime sets maximum rents for this tenure at up to 80% of local market rents and applies to all new build schemes receiving grant from the Homes and Communities Agency (HCA) including new council housing.

Welfare Reform Act 2012

The Government's welfare reform measures are aimed at:

- reducing the overall benefits bill
- increasing incentives to work:
- promoting independence and self-reliance
- creating greater fairness in the welfare system between those on out of work benefits and taxpayers in employment
- reducing long term dependency on benefits.

Social rent reduction

A reduction in rents by 1% a year for four years (until 2019/20). This has a major impact on long term HRA capacity.

Universal credit

A replacement for six means tested benefits and tax credits with one universal payment. UC will be rolled out in Babergh in late 2017/early 2018. Based on evidence from pilot programmes, its introduction substantially increases risk around rent arrears and bad debts.

Spare room subsidy

A reduction in housing benefit for working age tenants who under occupy their homes. This has resulted in greater demand for one and two bedroom Council properties.

The benefit cap

A cap on the maximum households can receive in benefits to £20,000. For single people without children, the cap is £13,400.

Housing and Planning Act 2016

The Housing and Planning Act made widespread changes to housing policy and the planning system. The Act is intended to promote homeownership and boost levels of housebuilding in England. The key changes affecting Council housing are outlined are:

High income social tenants – mandatory rents (Pay to Stay)

The Act provides local authorities with the option to charge higher rents to tenants with a household income exceeding £60,000. The Council has decided not to adopt Pay to Stay.

High Value Asset Sales

The Act imposes a duty on local housing authorities to consider selling higher value homes when they become vacant. The definition of "higher value" will be clarified by regulations yet to be made. The payment will take the form of a levy, giving local authorities a choice in how they raise the funds.

The money will again fund housing association Right to Buy discounts and new house building. As the rules around this issue have yet to be published we have not as yet included anything in our assumptions on it. There is the potential for implementation to have a significant negative impact on the HRA.

Fixed Term Tenancies

Lifetime (secure) tenancies for Council houses will be replaced with finite or fixed term tenancies of up to ten years. All other tenancy rights, including the Right to Buy, will remain.

The Housing Minister reaffirmed the Government's commitment to these policies in a letter to local authorities in November 2016 and in the February 2017 White Paper 'Fixing our broken housing market' although implementation appears likely to be April 2018 at the earliest.

3. 30 - YEAR FINANCIAL MODEL

3.1 ASSUMPTIONS

Since the previous iteration of the business plan, a range of assumptions have been adjusted to reflect the current operating environment and future pressures and capacity. The tables below highlight the previous assumptions in the plan and the adjusted assumptions.

Item	Current Assumption	New Assumption
Rent Increase	CPI+1% for the life of the plan after the 4 year rent reduction policy stops	CPI <u>only</u> for 2 years after the 4 year rent reduction policy stops, then CPI+1% for the remainder of the plan
Provision for Bad Debt	0.51% all Years	0.25% increase each year for the next three years, plateau for two years followed by reduction by 0.25% for two years then fixed for the life of the plan
Right to Buy Sales	27 sales for all years to Year 15 then 4 sales each year for the remainder of the plan	27 sales each year to year 11 then 20 each year for the remainder of the plan

The following assumptions have not been changed.

Description	Assumption
Basis for settlement	Potential to repay settlement loan by Year 25
Inflation and interest rates	RPI - 2.5% CPI – 1.5%
Management costs	Inflation long term at 2.5%
Voids – BDC	0.93%
Voids – MSDC	1.26%
Repairs costs	Inflation long term at 2.5%
Capital profile	BDC standard on existing stock moving with 2.5% inflation but this will be reviewed after the Stock Condition Survey
Assumptions of efficiencies being delivered	All inflationary pressures above main inflation absorbed

3.2 RATIONALE FOR ASSUMPTION ADJUSTMENTS

Rent Increase

Although difficult to predict, the assumption made on rent increases is that Government policy may not return directly to CPI+1% following 4 years of rent reduction. The assumption on rents is cautious but since the impact can be profound it is considered appropriate to model a small period at CPI only (1.5%) and then a return to CPI+1% for the remainder of the plan. The Government’s white paper makes it clear that the rent reduction regime will continue as planned (until 2020) but that this might be eased subsequently. In the absence of a firm commitment a prudent position remains.

Bad Debt

The assumption made on provision for Bad Debt has changed significantly and reflects the predicted impact of the roll-out of Universal Credit on arrears levels. The assumption is a sharp rise, a plateau as tenants become more familiar with the system then a reduction and further plateau marginally higher than the starting point for the remainder of the plan.

Right to Buy

Right to buy sales have a significant impact on future rental streams and on capital ‘match funding’ where receipts are kept for future acquisitions or development. MSDC has seen an increase in sales at around 32 per year for the last two years. Given the impact it is considered prudent to model this to year 15 followed by a tailing off of sales. The current plan had an historic 4 per year sales for the final years of the plan. This has been adjusted to 25, a figure considered more realistic in light of current sales and government policy.

Babergh and Mid Suffolk Building Services (BMBS)

There was no specific identification of the new building company within the previous business plan. A new tab has now been added to the plans with predicted costs of the venture and its projected losses and surpluses apportioned across the two Council HRA plans. The BMBS business plan projections are undergoing detailed review as there are concerns about the projections and costs and the reliability of those figures in the original plan. These revised projections will be incorporated into the next iteration of the plans and brought before Members in April.

4. DETAILED FINANCIAL ASSESSMENT

Financial analysis shows that the Babergh HRA faces has deteriorated slightly since previous iterations. Despite this the medium term projections remain strong.

The graphs to be shown at the meeting indicate a long term closing position in HRA projections well above the minimum policy £1,000,000 baseline and increasing in strength over time. No debt cap breach is projected and capital expenditure remains fully covered for the life of the plan

It must be remembered that this is based upon revised and prudent assumptions, in reality the position is likely to improve slightly. No urgent action is required however, as would be normal business practice the following will still be prudent.

- A review and reduction of management and other overhead costs
- The improvement in performance especially in void and arrears management and the reduction in bad debt.

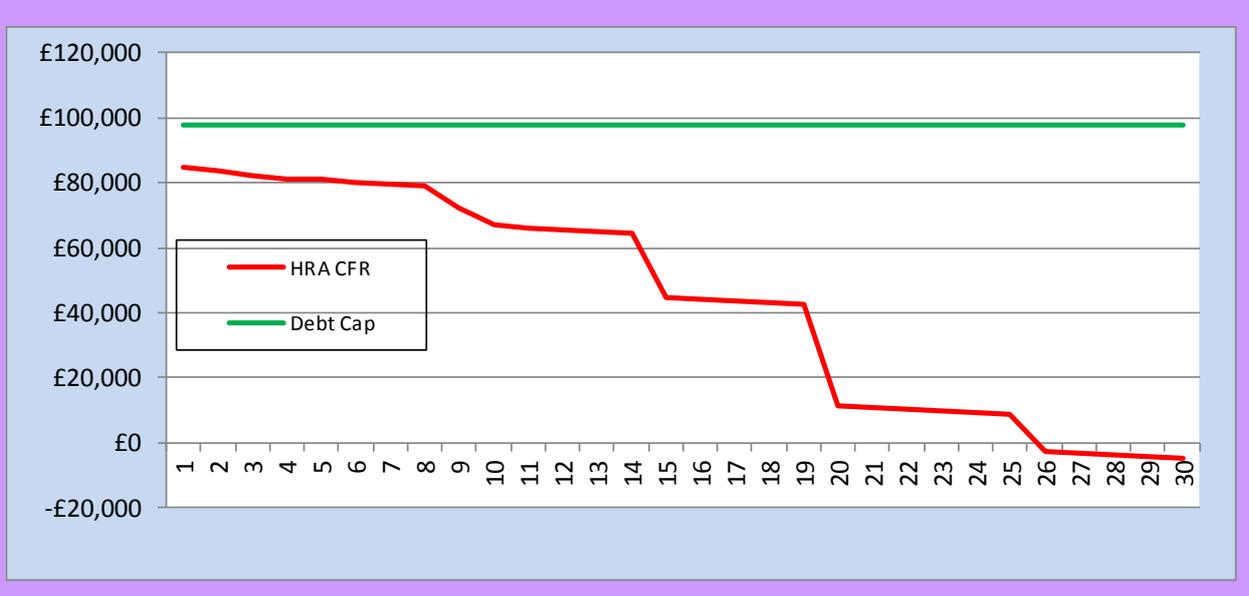

For both MSDC and BDC other modelling of CPI versus RPI uplifts are possible and a realistic way of likely improving the current position. Real long term impact however can only be secured by a mixture of the items bullet pointed above.

BDC Specific Mitigations

No extra efficiency savings are required, (beyond usual good practice) and efforts have been concentrated on setting up a model within the plan that looks at development capacity instead. In addition to existing known developments, the plan, at present, has the capacity for 30 new-build properties per year from 2018/19 and for a further 4 years; 150 additional new homes in total. Stress testing suggests that 40 per year over the same period breaks the plan and the debt cap is breached. Negotiation is already ongoing for 27 new homes in 2018/19 so the assumptions fit well with our emerging pipeline.

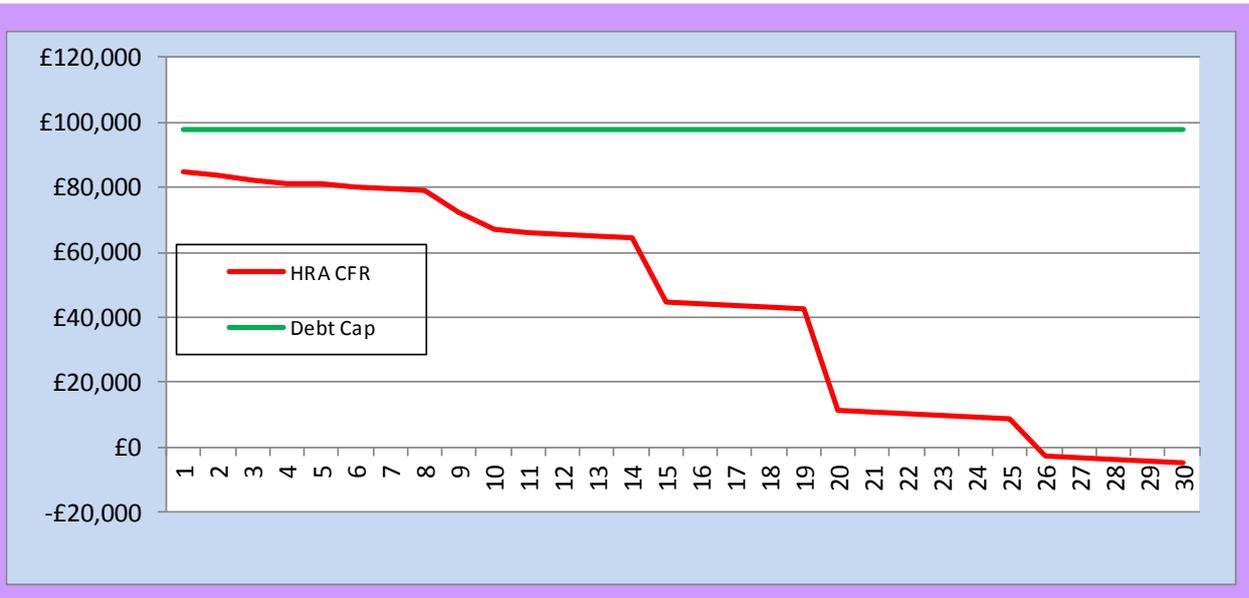

Charts illustrating the Babergh HRA financial position pre and post efficiency plan

Chart 3 – Pre efficiency plan

The chart shows the HRA operates within the debt cap including planned new homes growth for the 30 year life of the plan.

Chart 4 – Post efficiency plan

5. GROWTH AND BUILDING NEW COUNCIL HOMES

BDC's HRA has headroom of £14.3million in 2017/18 rising to £18.9m in 2021/22, making a strong programme of new building and acquisition of council housing a priority for the Council. The Council has already embarked on an ambitious grant funded new build programme that will deliver 27 new homes for rent and shared ownership by 2018. The Council has recently approved a new affordable homes development strategy which lays out a direction and methodology for the delivery of approximately 150 new build homes over the next three years.

The majority of which will be for rental and managed within the HRA. While we build our intelligence base to inform longer term development plans, we have the following development and acquisition activity happening already:

- We have commissioned a desk top exercise which will identify all existing HRA land and potential regeneration opportunities. These opportunities will then be reviewed and appraised to create a pipeline of estate regeneration based delivery.
- We are working with private developers to secure direct purchase of new build homes to utilise RTB receipts and ensure the viability and sustainability of such acquisitions.
- We will work with agents to source land opportunities for development. The level of funding required will be dependent on opportunities but a fund will be set aside to support this.
- The existing HQ site in Hadleigh may (amongst other things) provide opportunities for HRA investment in housing. Options for the site will be developed in late 2017.

The Investment and Development team is developing a pipeline of new HRA homes using HRA resources including: earmarked development funds; Right to buy receipts; Homes and Communities Agency Grant Funding; existing HRA owned land such as garage sites. Housing developments will also be brought forward by taking opportunities which arise within the HRA estate by making best use of our existing HRA assets to maximise development opportunities:

- Turnover of HRA homes – voids
- Garden severances and infill opportunities
- Garage site opportunities
- Review of existing housing that is no longer fit for purpose as a result of low demand or the asset is uneconomical to maintain or has a high value
- Joint ventures with neighbouring landowners

6. INCREASING FINANCIAL CAPACITY AND IMPROVING EFFICIENCY

The review of the HRA hasn't identified the need to achieve efficiency savings. Nevertheless, improving efficiency is good business practice and will increase the capacity to deliver growth.

The supported living team are developing an efficiency plan to deliver savings for the Mid Suffolk DC HRA and it has been assumed savings of £30,000 per annum for the 3 years from 2018/19 will be achieved in the Babergh HRA.

Activity Based Financial Analysis

The team have invested time in drilling down into our financial information to ensure that is a correct reflection of operations, with costs apportioned accurately and reported in a format that is understandable from an operational perspective.

This is a work in progress. The latest version of the analysis is shown below in Appendix 1. It includes an initial attempt at understanding productivity. A lot more work is needed on this if it is to become a useful tool but even at this stage it helps highlight anomalies, high cost areas and discrepancies between the Councils which have focussed the work of the team.

The component elements of the efficiency plan have yet to be finalised but are likely to include those set out below:

Improved ways of working

At the core of the All Together project is an increased investment in technology to enable over time

- more efficient working practices
- increased use of data
- better customer insight
- understanding what our customers value and what they do not
- more effective targeting of services
- encouraging self-service for those that are able in order to free up resource to make savings or focus on those that really need our help.

We are already reviewing the way we are structured to deliver housing services. This includes a reassessment of:

- The way we handle reports of ASB
- Focussing our work on those that need us most by piloting an 'Early Help Delivery Team' comprising a multi-disciplinary, integrated approach.

This approach is in line with a move to more outcome focused working proposed in the future vision for housing.

Improved performance

Our performance on void turnaround warrants further work across both Councils. Our target is 28 days. The performance over recent years is shown below.

Days	2012/13	2013/14	2014/15	2015/16
BDC	27	52	45	43
MSDC	24	62	66	42

Good work is already being done on rent collection but the implementation of Universal Credit (UC) presents a major challenge. Our work to mitigate the impact of UC and so minimise bad debts is vital to improving the financial health of both business plans.

Improved stock condition data

Robust stock condition data enables the Councils to plan and to budget for the work required to maintain the housing stock in a reasonable and lettable condition. Accurate data provides confidence that HRA funds are spent on the right work in the right places.

A project is underway to update the data to enable an evidence based programme of capital works to be designed for 2017/18 and the following two years. A fresh sample stock condition survey will be commissioned for BDC in 2018/19.

Increasing service charge income

Both Councils have agreed to an increase in sheltered housing service charges to begin closing the gap between cost and income. This process will need to continue in subsequent years and this will improve the financial positions of both HRAs.

Our processes for consulting, charging and collecting leasehold charges need improving. A home ownership project conducted last year made a number of recommendations that will be implemented during 2017.

A project to review our approach to rented service charge costs, which are significantly under charged, is being considered.

BMBS

The original BMBS business plan projections do not appear to be robust. A thorough review is underway and current projections are included in the financial analysis behind this report.

It appears likely that the outturn position will be significantly worse than that approved by Members. Part of the work we will do will be to produce options on improving the financial performance of BMBS where realistic and its longer term legal structure.

APPENDIX 1

ACTIVITY BASED FINANCIAL ANALYSIS

	Babergh 2017/18 Costs								Mid Suffolk 2017/18 Budget							
	Salaries	Direct Costs	Overheads	Total Cost	Income	Total	Units	Cost per unit	Salaries	Direct Costs	Overheads	Total Cost	Income	Total	Units	Cost per unit
