Mid Suffolk District Council**

Joint Local Development Scheme

July 2018

Babergh and Mid Suffolk Local Development Scheme

July 2018

Introduction

The Local Development Scheme (LDS) sets out the Council's timetable for adopting new planning documents which will help guide development in the Districts of Babergh District Council and Mid Suffolk District Council (BMSDC).

Since 2011 the production of an LDS has been guided by the requirements of s.111 of the Localism Act 2011 which amended s. 15 of the Planning and Compulsory Purchase Act 2004 and is further supported by the Town and Country Planning (Local Planning) (England) Regulations 2012.

The LDS:

- Provides a brief description of all the Local Plan documents and Neighbourhood Plans to be prepared and the content and geographical area to which they relate.
- Explains how the different documents relate to each other and especially how they relate to the adopted and forthcoming Local Plan.
- Set outs the timetable for producing Local Plan Documents, giving the timings for the achievement of the following milestones:
 - publication of the document
 - submission of the document
 - adoption of the document
- Provide information on related planning documents outside the formal Local Plan, including the Statement of Community Involvement, Annual Monitoring Report and other strategies.

This LDS will update the Joint LDS adopted in March 2017.

Progress of the LDS is reviewed at least annually as part of the Annual Authority Monitoring Process.

The Local Plan –

The following table provides a brief description of the Local plan documents and the main milestones as set out in the Town and Country Planning (Local Planning) (England) Regulations 2012 for the production of each of the documents we intend to prepare over the next two years.

It is important that the Local Plan is kept up to date so that change is managed strategically and at the local level.

Neighbourhood Planning

The Localism Act 2011 and the publication of the National Planning Policy Framework (NPPF) in March 2012 placed greater emphasis on developing plans at the community level through a concept of neighbourhood planning. The Housing White Paper (2017) and the Neighbourhood Planning Act 2017 provides ongoing support.

Neighbourhood plans are produced by local communities and once completed (subject to examination and local referendum) they become part of the local authorities' development plan and have a significant influence on the future growth and development of the respective area.

The first stage of developing a neighbourhood plan is to designate a neighbourhood area. A number of parishes in BMSDC have now achieved this stage, as shown below. Once a neighbourhood area has been agreed, preparation of a neighbourhood plan can be carried out by a parish or town council, or in the case of unparished areas, a neighbourhood forum.

Details on the current status of Neighbourhood Plans is available on the Councils' website neighbourhood planning pages at:

Phasing of work for other Local Development Documents

- **Statement of Community Involvement (SCI)**

The Statement of Community Involvement provides a first step in plan making as it outlines the processes for consultation and engagement during the production of future documents of all types.

The latest Joint Babergh and Mid Suffolk SCI was adopted in March 2014 and is currently under review (June 2018).

The Councils joint SCI (March 2014) sets out the framework for consultation and engagement with the community in making planning decisions.

The joint SCI responds to legislative changes including the Localism Act 2011, together with the resource constraints facing the public, private and voluntary sectors. The production of an SCI is in part governed and directed by guidance and requirements at the national level, with the Neighbourhood Planning Act 2017 introducing the requirement for SCIs to 'set out the local authority's policies for giving advice or assistance' in the preparation neighbourhood development plans and neighbourhood development orders.

- **Annual Authority Monitoring Report (AMR)**

The Joint BMSDC Annual Authority Monitoring Report, is published each year between May and July to demonstrate the progress of the objectives of the adopted Joint Local Plan(s).

- **Evidence Base**

The evidence base is a key feature of the Joint Local Plan and associated planning documents.

Evidence informs and ensures the development plan's proposals and policies are soundly based. To ensure this a number of specialist studies and other research projects are, or will be undertaken. These will also be important in monitoring and review, as required by the AMR.

Some documents will also be published that are not specifically for planning purposes but are important in informing the process (e.g. the Council's Joint Strategic Plan and other service strategies).

Each document will be made publicly available at the appropriate time in the process, on the Councils' website (<https://www.babergh.gov.uk/> and <https://www.midsuffolk.gov.uk/>).

All documents will be made available at the relevant examination. These documents will be reviewed in the AMR to see if they need to be reviewed or withdrawn. Other documents may also be produced as needed during the process.

- **Integration with other Strategies**

The Local Plan has a key role in providing a spatial dimension for many other strategies and helping their co-ordination and delivery. The Council works closely with other public bodies and stakeholders to satisfy the duty to co-operate on strategic matters and the evidence base reflects collaborative working at the Suffolk level, with other authorities and stakeholders.
