

MID SUFFOLK LICENSING AUTHORITY

GAMBLING ACT 2005: STATEMENT OF PRINCIPLES

Approved by Mid Suffolk District Council on X December 2018

Effective: 31 January 2019 until 31 January 2022
(Unless Revised Sooner)

Preface:

Core content of this '**Gambling Act 2005: Statement of Principles**' has been drafted in partnership by the seven district and borough Licensing Authorities across Suffolk with an aim of creating a broadly consistent Countywide document for the benefit of all stakeholders and others with an interest in the Gambling Act 2005 functions.

Section 349 of the Gambling Act 2005 requires all Licensing Authorities to prepare and publish a statement of principles that they propose to apply in exercising their functions under the Act during the three-year period to which the policy applies. This document is the fifth such statement for this Licensing Authority and must, by order of the Secretary of State, be published to take effect from 31 January 2019.

This document has been developed with due regard to all available regulations, conditions, codes of practice, statutory guidance, practical experience of legislation and any consultee responses. Should anything in future publications, legislative/regulatory changes or case law impact upon the content of this 'Statement of Principles' document, then it will be taken into account and the document may be updated at a later stage and with due consideration to the resource implications for the Licensing Authority.

All references made within this document to the Gambling Commission's Guidance for Licensing Authorities, and any extracts quoted thereof, refer to the fifth edition Guidance document published in September 2015 (as amended in September 2016).

PART A - GENERAL

1. The Licensing Objectives

- 1.1 In exercising most of its functions under the Gambling Act 2005, the Licensing Authority must have regard to the licensing objectives as set out in section 1 of the Gambling Act 2005 ('the Act'). The licensing objectives are:

- **Preventing gambling from being a source of crime or disorder, being associated with crime or disorder, or being used to support crime.**
- **Ensuring that gambling is conducted in a fair and open way.**
- **Protecting children and other vulnerable persons from being harmed or exploited by gambling.**

The Gambling Commission has stated, with limited exceptions, the intention of the Gambling Act 2005 is that children and young persons should not be permitted to gamble and should be prevented from entering those gambling premises which are adult only environments. The objective refers to protecting children from being 'harmed or exploited' by gambling. This means preventing them from taking part in gambling activities except limited authorised activities (see schedule D), and for there to be restrictions on advertising so that gambling products are not aimed at children or advertised in such a way that makes them particularly attractive to children (excepting category D machines).

- 1.2 In accordance with section 153 of the Act, in making decisions about premises licences and temporary use notices the Licensing Authority should **aim to permit** the use of the premises for gambling purposes in so far as it thinks it is:
- in accordance with any relevant code of practice issued by the Gambling Commission;
 - in accordance with any relevant guidance issued by the Gambling Commission;
 - reasonably consistent with the licensing objectives; and
 - in accordance with the Authority's statement of principles.

2. Introduction

- 2.1 Mid Suffolk District Council is situated in the County of Suffolk, which contains seven District/Borough Councils in total.

Mid Suffolk lies in the heart of the Suffolk Countryside, to the north west of Ipswich. The District covers an area of 87,000 hectares, with a population of approximately 98,000, 69 of 123 parishes have a population below 500. It is the most sparsely populated of all seven districts in the county.

There are three market towns, (Stowmarket, Needham Market and Eye) but the majority of the population lives in the 123 parishes. These communities are long established, many with listed buildings, fine trees and open spaces. The fast growing

county town of Ipswich lies on the eastern border and forms one end of the hi-tech Cambridge corridor.

Map of Mid Suffolk District

The main gambling activities noted in the district since implementation of the Gambling Act 2005 are licensed off-course betting, gaming in alcohol licensed premises and members clubs (in the form of gaming machines, exempt and prescribed gaming), non-commercial gaming and small society lottery registrations.

- 2.2 Licensing Authorities are required by the Act to publish a statement of the principles, which they propose to apply when exercising their functions. This statement must be published at least every three years. The statement must also be reviewed from “time to time” and any amended parts must be re-consulted upon. Following any amendment and consultation, the revised statement will then be re-published.
- 2.3 Mid Suffolk District Council consulted widely upon this statement of principles before it was finalised and published. The Gambling Act 2005 requires that the following parties are consulted by Licensing Authorities:
 - The Chief Officer of Police;
 - One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority’s area; and

- One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Gambling Act 2005.

A list of the persons consulted by the Licensing Authority is attached to this document as **Schedule A**.

The consultation took place between **31 August 2018 and 12 October 2018**.

The full list of comments made and the consideration by the Licensing Authority of those comments is available upon request by contacting:

 (☎ Tel: 0300 123 4000) e-mail: licensingteam@baberghmidsuffolk.gov.uk website:  www.midsuffolk.gov.uk

- 2.4 The statement of principles was approved at a meeting of the full Council of Mid Suffolk District Council on X December 2018 and was published on the Council website by X January 2019. Copies were placed in the public libraries within the District as well as being available at Council's Customer Access Points in Stowmarket and Sudbury. Should you have any comments concerning this document then please send them via e-mail or letter to the Licensing Team as above.
- 2.5 It should be noted that this statement of principles shall not override the right of any person to make an application, make representation about an application, or apply for a review of a licence, as each will be considered on its own merits and according to the statutory requirements of the Gambling Act 2005.
- 2.6 Where revisions are made to the legislation or Guidance issued by the Gambling Commission, there may be a period of time when the local statement of principles is inconsistent with these revisions. In these circumstances, the Licensing Authority will have regard, and give appropriate weight, to the relevant changes, Guidance and its own statement of principles.

3. Declaration

- 3.1 In producing this statement of principles the Licensing Authority declares that it has had due regard to the licensing objectives of the Gambling Act 2005 (see 1.1 of this document above), the Guidance issued by the Gambling Commission, and any responses from those consulted on the statement of principles.

4. Responsible Authorities

- 4.1 The Licensing Authority is required by regulations to state the principles it will apply in exercising its powers under Section 157(h) of the Act to designate, in writing, a body which is competent to advise the Licensing Authority about the protection of children from harm. The principles are:
- the need for the body to be responsible for an area covering the whole of the Licensing Authority's area; and

- the need for the body to be answerable to democratically elected persons, rather than any particular vested interest group.

4.2 In accordance with the Gambling Commission Guidance for Licensing Authorities this Authority intends to designate the **Suffolk Safeguarding Children Board** for this purpose.

4.3 The contact details of all the Responsible Bodies under the Gambling Act 2005 are available via the Mid Suffolk District Council website at www.midsuffolk.gov.uk or available upon request to the Licensing Team.

5. Interested parties

5.1 Interested parties can make representations about licence applications, or apply for a review of an existing licence. The Gambling Act 2005 defines interested parties as persons who:

- live sufficiently close to the premises to be likely to be affected by the authorised activities;
- have business interests that might be affected by the authorised activities; or
- represent persons who satisfy paragraph (a) or (b).

5.2 The Licensing Authority is required by regulations to state the principles it will apply in exercising its powers under the Gambling Act 2005 to determine whether a person is an interested party (including whether a person lives sufficiently close to the premises. These principles are:

- each case will be decided upon its merits; and
- the Licensing Authority will not apply a rigid rule to its decision making. It may have regard to a number of factors, for example:
 - the size of the premises;
 - the nature of the premises (including activities the applicant proposes to provide);
 - the distance of the premises from the location of the person making the representation;
 - the potential impact of the premises such as the number of customers, route likely to be taken by those visiting the establishment;
 - the circumstances of the person who lives close to the premises. This is not their personal characteristics, but their interests which may be relevant to the distance from the premises; and
 - guidance from the Gambling Commission that “business interests” should be given the widest possible interpretation (see paragraph 8.14 of the Gambling Commission’s guidance).

5.3 Interested parties can be persons who are democratically elected such as county, parish and town councillors and MPs. Other than these persons, the Licensing Authority will normally require written evidence that a person ‘represents’ someone who either lives sufficiently close to the premises and likely to be affected by the authorised activities and/or business interests that might be affected by the authorised activities.

5.4 If individuals approach Councillors to ask them to represent their views then care should be taken that the Councillors are not subsequently appointed as part of a

Licensing Sub-Committee who may be involved with the determination of the licence application. If any further guidance is required, generally or in individual cases, then please contact the Licensing Team at Mid Suffolk District Council.

6. Exchange of Information

- 6.1 This Licensing Authority will, when exchanging information which it holds relating to gambling premises, permits and temporary permissions, apply the following principles:
- act in accordance with the provisions of the Gambling Act 2005;
 - comply with the Data Protection Act 2018;
 - comply with any relevant requirements of the Freedom of Information Act 2000;
 - have regard to Part 13 of the Guidance issued by the Gambling Commission on this matter and the Gambling Commission's publication '*Advice to Licensing Authorities on information exchange with the Gambling Commission*' (as may be periodically updated); and
 - any relevant regulations issued by the Secretary of State under the powers provided in the Gambling Act 2005.
- 6.2 Should any protocols be established pursuant to section 350 of the Act concerning information exchange with the other bodies as listed in Schedule 6(1) of the Act then these will be made available by the Licensing Authority.

7. Enforcement

- 7.1 Licensing Authorities are required by regulation under the Gambling Act 2005 to state the principles to be applied by the Authority in exercising the functions under Part 15 of the Act with respect to the inspection of premises; and the powers under section 346 of the Act to institute criminal proceedings in respect of the offences specified.
- 7.2 This Licensing Authority's principles are that it will be guided by the Gambling Commission's Guidance (in particular Part 36), the Regulators' Code and its own Joint Corporate Enforcement Policy. The Authority shall endeavour to regulate in the public interest and be:
- **Proportionate:** regulators should only intervene when necessary and remedies should be appropriate to the risk posed, and costs identified and minimised;
 - **Accountable:** regulators must be able to justify decisions, and be subject to public scrutiny;
 - **Consistent:** rules and standards must be joined up and implemented fairly;
 - **Transparent:** regulators should be open, and keep regulations simple and user friendly; and
 - **Targeted:** regulation should be focused on the problem, and minimise side effects.
- 7.3 In accordance with the Gambling Commission's Guidance, the Licensing Authority will endeavour to avoid duplication with other regulatory regimes so far as possible.
- 7.4 Any inspection programme, which may be adopted by the Licensing Authority, shall be risk-based and may be combined with other functions.
- 7.5 The enforcement and compliance role for the Licensing Authority under the Gambling Act 2005 is to ensure compliance with the Premises Licences and other permissions,

which it authorises. The Gambling Commission is the enforcement body for Operator and Personal Licences. Manufacture, supply or repair of gaming machines is dealt with by the Gambling Commission and not the Licensing Authority.

7.6 This Licensing Authority will also endeavour to work in partnership with and support local businesses, having due regard to the stated principles and any best practice guidelines/codes published by the Office for Product Safety and Standards, in respect of its responsibilities under the Gambling Act 2005 and other regulatory functions of the Local Authority. This includes that Regulators should:

- carry out their activities in a way that supports those they regulate to comply and grow;
- provide simple and straightforward ways to engage with those they regulate and hear their views;
- base their regulatory activities on risk;
- share information about compliance and risk;
- ensure clear information, guidance and advice is available to help those they regulate meet their responsibilities to comply; and
- ensure that their approach to their regulatory activities is transparent.

7.7 With due regard to the principle of transparency, any enforcement/compliance protocols or written agreements developed by the Licensing Authority shall be made available upon request to the Licensing Team.

7.8 In considering applications, and taking enforcement action, under the Gambling Act 2005 the Licensing Authority shall duly consider any Human Rights Act 1998 implications (in particular Article 1, Protocol 1 and Articles 6, 8 and 10).

8. Licensing Authority functions

8.1 The Act gives Licensing Authorities a number of important regulatory functions in relation to gambling, the main functions of which are to:

- Licence premises for gambling activities;
- Consider notices given for the temporary use of premises for gambling;
- Grant permits for gaming and gaming machines in clubs and miners' welfare institutes;
- Regulate gaming and gaming machines in alcohol-licensed premises;
- Grant permits to Family Entertainment Centres (FEC's) for the use of certain lower stake gaming machines;
- Grant permits for prize gaming;
- Consider occasional use notices for betting at tracks;
- Register small societies' lotteries;
- Consider applications for provisional statements;
- Provide information to the Gambling Commission regarding details of licences, permits, notices and registrations issued (see section 6 above on 'Exchange of Information');
- Maintain registers of the permits, notices and licences that are issued under these functions; and
- Prepare and publish, every three years (or sooner if required), a statement of the principles it proposes to apply when exercising its functions under the Gambling Act 2005.

Additions or amendments to the list above notified by the Gambling Commission will be published on the Council's Website.

- 8.2 Mid Suffolk District Council's summary of delegations adopted under the Gambling Act 2005 is available separately via the Council's website at www.midsuffolk.gov.uk or upon request to the Licensing Team.
- 8.3 It should be noted that local Licensing Authorities are not responsible for licensing remote gambling. This is the responsibility of the Gambling Commission.

9. Appeals

- 9.1 Appeals relating to premises licensing and other decisions by Licensing Authorities are covered within the relevant legislation and regulations and are referred to in Part 12 of the Gambling Commission's guidance.

PART B – PREMISES LICENCES

1. General Principles

- 1.1 Premises Licences are subject to the requirements set out in the Gambling Act 2005 and regulations. The Act provides that conditions may be attached to licences, in a number of ways:
- automatically, having been set out on the face of the Act ;
 - through regulations made by the Secretary of State;
 - by the Gambling Commission, to operating and personal licences;
 - by the Licensing Authority, to premises licences and some permits; and
 - by the Licensing Authority, by excluding certain default conditions on a premises licence.
- 1.2 When determining an application, this Licensing Authority **aims to permit** the use of premises for gambling in so far as it thinks it is:
- in accordance with any relevant code of practice issued by the Gambling Commission;
 - in accordance with any relevant guidance issued by the Gambling Commission;
 - reasonably consistent with the licensing objectives; and
 - in accordance with the Authority's statement of principles.
- 1.3 **Definition of "premises":**
'Premises' is defined in the Act as "any place". A particular premises cannot be granted more than one premises licence under the Gambling Act at any one time. It is possible for a single building to be subject to more than one Premises Licence, provided they are for different parts of the building and the different parts of the building can be reasonably regarded as being separate premises. Whether different parts of a building can properly be regarded as being separate premises will always be a question of fact in the circumstances. However, the Gambling Commission does not consider that areas of a building that are artificially or temporarily separated, for example by ropes or moveable partitions, can be properly regarded as different premises.
- 1.4 The Licensing Authority takes particular note of the Gambling Commission's Guidance, which states that Licensing Authorities should take particular care when considering applications for more than one premises licences for a single building, and applications for a premises licence where part of the premises is used for non-gambling purposes. In particular the Licensing Authority will consider whether:
- entrances and exits from parts of a building covered by one or more licences are to be separate and identifiable so that the separation of different premises is not compromised and that people cannot 'drift' into a gambling area;
 - premises should be configured so that children are not invited to participate in, have accidental access to, or closely observe gambling where they are prohibited from participating; and
 - customers are able to participate in the principal gambling activity authorised by the premises licence.

1.5 The Licensing Authority takes particular note of the Gambling Commission's Guidance, which states that Licensing Authorities should pay particular attention to applications where access to the licensed premises is through other premises, whether licensed or unlicensed. The Licensing Authority will consider whether:

- entrances and exits from parts of a building covered by one or more licences are to be separate and identifiable so that the separation of different premises is not compromised and that people cannot 'drift' into a gambling area;
- premises should be configured so that children are not invited to participate in, have accidental access to, or closely observe gambling where they are prohibited from participating; and
- customers are able to participate in the principal gambling activity authorised by the premises licence.
- children can gain access to the premises;
- the two establishments are compatible;
- the proposed licence holder would be able to comply with the requirements of the Act, for example, mandatory operating licence conditions; and
- Gambling Commission's Guidance in relation to division, separation or splitting of premises and primary gambling activity (see Part 7 of statutory guidance).

In addition an overriding consideration for the Licensing Authority is whether, taken as a whole, the co-location of the licensed premises with other facilities has the effect of creating an arrangement that otherwise would, or should, be prohibited under the Act.

1.6 Where an application is made in respect of a premises to be constructed or altered the Licensing Authority will consider each application on its own merits having due regard to the advice given by the Gambling Commission in its Guidance (particularly sections 7.59 to 7.65). The Licensing Authority will consider whether:

- a future effective date on the licence is appropriate; or
- the licence should be issued subject to a condition that trading shall not commence until the premises have been completed in all respects and in accordance with the scale plans provided with the application.

The Licensing Authority may require inspection of the completed works or written confirmation from the applicant, their agent or surveyor to satisfy the Authority that the completed works comply with the original, or changed, plan attached to the premises licence.

1.7 **Location:** Demand or need for licensed premises cannot be considered with regard to the location of premises. In accordance with the Gambling Commission Guidance, the Licensing Authority will pay particular attention to protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder. The Licensing Authority will carefully consider applications for premises licences and whether there is a need for condition(s) to mitigate risks, in respect of certain kinds of gambling located very close to a school or a centre for gambling addicts, in light of the third licensing objective. Each case will be decided on its merits and will depend to a large extent on the type of gambling that is proposed for the premises. The requirement for conditions might be determined by the operator's own risk assessment or the local area profile carried out by the licensing authority.

1.8 **Duplication with other regulatory regimes:** The Licensing Authority seeks to avoid any duplication with other statutory / regulatory systems wherever possible, including planning, building control, health and safety and fire safety. Should it come to the

attention of the Licensing Authority that planning conditions or other regulatory restrictions/controls may impact on a premises operator's ability to comply with mandatory or default conditions then it may alert the applicant accordingly. The grant of a gambling premises licence does not prejudice or prevent any action that may be appropriate under the law relating to planning or building control.

- 1.9 **Licensing objectives:** Premises Licences granted must be reasonably consistent with the licensing objectives. With regard to these objectives, the Licensing Authority has considered the Gambling Commission's Guidance and provides some commentary below:

(1) Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime:

The Gambling Commission takes the leading role in preventing gambling from being a source of crime. Where a particular area is associated with criminal activity the Licensing Authority will consider carefully whether gambling premises are suitable to be located there and whether conditions may be appropriate, for example the provision of door supervisors. There is a distinction between disorder and nuisance, and Licensing Authority will consider factors such as whether police assistance was required and how threatening the behaviour was to those who could see it, so as to make that distinction. Issues of nuisance cannot be addressed when determining applications under the Gambling Act 2005. The Licensing Authority shares the view expressed by the Gambling Commission in their guidance that in the context of gambling premises licences, licensing authorities should generally consider disorder as activity that is more serious and disruptive than mere nuisance.

(2) Ensuring that gambling is conducted in a fair and open way:

The Gambling Commission states in its Guidance that it would, with the exception of tracks, generally not expect Licensing Authorities to be concerned with ensuring that gambling is conducted in a fair and open way as this is addressed via Operator and Personal licensing requirements. If the Licensing Authority suspects that gambling is not being conducted in a fair and open way then this will be brought to the attention of the Gambling Commission for its further consideration.

The Licensing Authority's role in relation to tracks will be different from other premises, in that track owners will not necessarily hold an operating licence with the Gambling Commission. In such circumstances the premises licence may need to contain conditions to ensure that the environment in which betting takes place is suitable. The Licensing Authority will have regard to the Gambling Commission's Guidance at Part 20 when considering such matters.

(3) Protecting children and other vulnerable persons from being harmed or exploited by gambling:

The Gambling Commission has stated, with limited exceptions, the intention of the Gambling Act 2005 is that children and young persons should not be permitted to gamble and should be prevented from entering those gambling premises which are adult only environments. The objective refers to protecting children from being 'harmed or exploited' by gambling. This means preventing

them from taking part in gambling activities except limited authorised activities (see schedule D), and for there to be restrictions on advertising so that gambling products are not aimed at children or advertised in such a way that makes them particularly attractive to children (excepting category D machines).

The Licensing Authority will therefore consider, as suggested in the Gambling Commission's Guidance, whether specific measures are required at particular premises, with regard to this licensing objective. Appropriate measures may include such matters as supervision of entrances/machines or segregation of areas and the Licensing Authority will also have due regard to any relevant Codes of Practice issued by the Gambling Commission concerning this licensing objective in relation to specific premises.

The Gambling Commission does not provide a definition for the term "vulnerable persons" but states that "for regulatory purposes assume that this group includes people who:

- gamble more than they want to;
- gamble beyond their means; and
- may not be able to make informed or balanced decisions about gambling due to, for example mental health, a learning disability or substance misuse relating to alcohol or drugs.

The Licensing Authority will consider this licensing objective on a case by case basis.

1.10 **Conditions:**

Since the Licensing Authority must aim to permit the use of premises for gambling, it will not attach conditions which limit the use of the premises for gambling, except where that is necessary as a result of the requirement to act:

- in accordance with the Gambling Commission's Guidance, the Commission's codes of practice or this Licensing Authority's Statement of Principles; or
- in a way that is reasonably consistent with the Licensing Objectives.

This Licensing Authority notes that conditions on premises licences should only relate to gambling, and it is not necessary, proportionate or appropriate to impose conditions on a premises licence where the Gambling Commission's Licence Conditions and Codes of Practice, or other legislation, places the same or similar duties, responsibilities or restrictions on an employer or the operator of gambling premises.

This Licensing Authority shares the view of the Gambling Commission that the mandatory and default conditions set by the Secretary of State will normally be adequate for the general good conduct of gambling premises. However, where there are specific, evidenced risks or problems associated with a particular locality, specific premises, or class of premises in its area then the Licensing Authority may be able to attach individual conditions to address this.

Any conditions attached by the Licensing Authority to a premises licence shall be:

- carefully considered in view of the matters mentioned above at 1.10;
- directly related to the premises (including the locality and any identified local risks) and the type of licence applied for;

- relevant to the need to make the proposed building suitable as a gambling facility;
- fairly and reasonably related to the scale and type of premises; and
- reasonable in all other respects.

Sections 169 to 172 of the Act set out certain matters that may not be the subject of Licensing Authority conditions, as set out below:

- any condition on the Premises Licence which makes it impossible to comply with an Operator Licence condition;
- conditions relating to gaming machine categories, numbers, or method of operation;
- conditions which provide that membership of a club or body cannot be required by attaching a condition to a premises licence (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated); and
- conditions in relation to stakes, fees, winning or prizes.

The Licensing Authority will have due regard to these when considering the need for conditions.

1.11 The Licensing Authority will also consider specific measures, which may be required for buildings, which are the subject of more than one Premises Licence. In considering these matters the Licensing Authority shall have due regard to:

- any mandatory or default conditions of licence;
- any relevant Codes of Practice (particularly social responsibility provisions linked to operator licences) issued by the Gambling Commission; and
- Gambling Commission's Guidance.

Such measures may include the supervision of entrances, segregation of gambling from non-gambling areas frequented by children and the supervision of gaming machines in specific non-adult gambling premises in order to promote the licensing objectives.

1.12 The Licensing Authority must be satisfied that where category C or above machines are available in premises to which children are admitted:

- all such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
- only adults are admitted to the area where these machines are located;
- access to the area where the machines are located is supervised;
- the area where these machines are located is arranged so that it can be observed by the staff or the licence holder; and
- at the entrance to and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.

These considerations may apply to premises including buildings where more than one Premises Licence is applicable.

1.13 'Tracks' may be subject to one, or more than one, Premises Licence provided each licence relates to a specified area of the track. In accordance with the Gambling

Commission's Guidance, the Licensing Authority will consider the impact upon the protection of children licensing objective and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

1.14 In accordance with Gambling Commission's Guidance, the Licensing Authority may consider whether door supervisors are necessary and appropriate in the particular circumstances in order to:

- prevent premises from becoming a source of crime or disorder; or
- protect children and vulnerable persons from being harmed or exploited by gambling.

Should the Licensing Authority consider that door supervisors are necessary and appropriate in the particular circumstances to promote the licensing objectives for a particular premises, it will normally expect that any person employed as a door supervisor at that premises will either:

- meet the minimum requirements necessary for that individual to be licensed by the Security Industry Authority (SIA) in normal circumstances (accepting that there is a specific exemption from the licensing of door supervisors by the SIA for in-house staff casino and bingo premises); or
- the holder of the operator licence will have recruitment criteria for their door supervisors, which may specify:
 - (i) a minimum training standard (whether within the organisation, or a nationally accredited training course); and
 - (ii) an assessment of whether that individual is fit and proper, for example by means of a subject access search, Disclosure and Barring Service (DBS) disclosure or other means.

1.15 Operators should ensure their familiarity and compliance where appropriate, with the Gambling Commission's published Licence Conditions and Codes of Practice (LCCP), which were substantially updated in April 2018. These provide sector-specific advice about steps that a business should take to meet its social responsibilities and reflect the licensing objectives. In particular this relates to those business activities which fall under the responsibility of the Licensing Authority i.e. in the areas of non-remote casino, adult gaming centre, bingo, family entertainment centre, betting and remote betting intermediary (trading room only) licences. The exceptions to this are non-remote general betting (limited) and betting intermediary licences. See also **Schedule E** of this statement of principles relating to Local Area Profile and Risk Assessments.

2. Adult Gaming Centres

2.1 The Licensing Authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will require applicants to demonstrate that there will be sufficient measures to ensure that under 18 year olds do not have access to the premises. Appropriate measures may also be included within mandatory/default conditions, codes of practice and cover matters such as:

- Proof of age schemes;
- CCTV;

- Supervision of entrances / machine areas;
- Physical separation of areas;
- Access and Location of entry;
- Notices / signage;
- Self-barring schemes;
- ATM location;
- Prohibition of alcohol consumption; or
- Provision of information leaflets/helpline numbers for organisations such as GamCare or Be Gamble Aware.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

The Licensing Authority may determine the opening hours for Adult Gaming Centres, on a case-by-case basis, in the absence of any default conditions addressing this matter.

3. (Licensed) Family Entertainment Centres (FEC's)

- 3.1 The Licensing Authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will require applicants to demonstrate that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only Category C gaming machine areas.

The Licensing Authority will require applicants to demonstrate that there will be sufficient measures to promote the licensing objectives. Appropriate measures may also be included within mandatory/default conditions, codes of practice and cover issues such as:

- CCTV;
- Supervision of entrances / machine areas;
- Physical separation of areas;
- Access and Location of entry;
- Notices / signage;
- Challenging children or young persons attempting to play Category C machines;
- Self-barring schemes;
- ATM location;
- Prohibition of alcohol consumption;
- Provision of information leaflets/helpline numbers for organisations such as GamCare or Be Gamble Aware; or
- Measures / training for staff on how to deal with suspected truant school children on the premises.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

- 3.2 The Licensing Authority will, in accordance with the Gambling Commission's Guidance, make itself aware of any conditions that may apply to Operator licences covering the way in which the area containing the category C machines should be delineated. The Licensing Authority will ensure that it has due regard to any mandatory or default conditions on these Premises Licences, Codes of Practice and guidance issued by the

Gambling Commission when discharging its functions in relation to licensed Family Entertainment Centres.

The Licensing Authority may determine the opening hours for licensed FEC's, on a case-by-case basis, in the absence of any default conditions addressing this matter.

4. Casinos

4.1 The Licensing Authority has not passed a 'no casino' resolution under Section 166 of the Gambling Act 2005, but retains the power to do so. Any change will be published in this Statement of Principles and on the Council's Website during any intervening period.

4.2 Where a Licensing Authority area has the power to determine a Premises Licence application for a new style casino, it will do so following any regulations under Section 175 of the Gambling Act 2005 published by the Secretary of State.

4.3 The Act lays down a framework for a two-stage process for considering applications in circumstances where the number of applications exceeds the number of licences available, and this will be followed by the Licensing Authority.

4.4 **Licence considerations/conditions:** The Licensing Authority shall have due regard to the Gambling Commission's guidance in relation to the suitability and layout of casino premises, and also the guidance issued by the Commission on primary gambling activity at casino premises.

Conditions may be attached to casino operator licences by the Gambling Commission to restrict the types of casino games that may be made available, or specifying rules for casino or equal chance games played in a casino. The Licensing Authority will make itself aware of any operating, mandatory and default conditions, codes of practice and Gambling Commission's guidance when considering applications, and attachment of any conditions, for casino premises licences.

4.5 **Betting machines:** Where betting is permitted in a casino the Licensing Authority will normally, in accordance with Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines (self-service betting terminals) an operator wants to make available.

5. Bingo premises

5.1 It is important that if children are allowed to enter premises licensed for bingo that they do not participate in gambling, other than on category D machines. Where category B or C or machines are made available for use on premises to which children are admitted Licensing Authorities should ensure that:

- all such machines are located in an area of the premises separate from the remainder of the premises by a physical barrier which is effective to prevent access other than

- through a designated entrance; and
- only adults are admitted to the area where the machines are located.

5.2 The Licensing Authority shall have due regard to relevant licence conditions and codes of practice in relation to the operation of Bingo premises, and also the Gambling Commission's guidance about the particular issues that Licensing Authorities should take into account in relation to the suitability and layout of bingo premises. This includes guidance on primary gambling activity, split premises and operating licence conditions.

6. Betting premises

6.1 **Betting machines:** The Licensing Authority will normally, in accordance with the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (It is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines (self-service betting terminals) an operator wants to make available. Children and young persons will not be able to enter premises which hold a Betting Premises licence, unless the special rules applying to tracks are applicable.

6.2 The Licensing Authority shall have due regard to the Gambling Commission's guidance in relation to the suitability and layout of betting premises. This includes guidance on primary gambling activity, split premises and operating licence conditions.

6.3 Betting Machines (Self-service betting terminals) are not gaming machines under the Act, and do not accrue against the premises entitlement for gaming machines, unless the machine is designed or adapted for use to bet on **virtual** races (that is, images generated by computer to resemble races or other events) in which case it is considered a gaming machine. Where betting facilities are provided only by betting machines the number of betting machines must exceed the number of gaming machines made available for use.

7. Tracks

7.1 Tracks are defined under section 353 of the Act as "a horse racecourse, greyhound track or other premises on any part of which a race or other sporting event takes place or is intended to take place"

7.2 The Act does not give a list of premises that are officially recognised as 'tracks', but there are a number of venues that could be classed as tracks, examples of tracks may include:

- a horse racecourse
- a greyhound track
- a point to point horse race meeting
- football, cricket and rugby grounds
- an athletics stadium
- a golf course
- venues hosting darts, bowls or snooker tournaments

- premises staging boxing matches
- sections of river hosting a fishing competition
- a motor racing event

This list is not exhaustive, but gives an example of the types of venue which could accommodate the provision of betting facilities.

7.3 The different types of approval for the provision of betting facilities may be made available at a sporting event are:

- an Occasional Use Notice (OUN); and
- a Track Premises Licence.

Betting in relation to tracks may be provided either as on course, or off course betting. The different types of betting are explained in detail in the Guidance issued by the Gambling Commission, and this is available via the Gambling Commission website at www.gamblingcommission.gov.uk

7.4 A betting premises licence permits a premises to be used for the provision of facilities for betting, whether by:

- making or accepting bets
- acting as a betting intermediary; or
- providing other facilities for the making or accepting of bets.

7.5 Tracks are the only class of premises that may be subject to more than one premises licence, provided that each licence relates to a specific area of the track. This allows track venues to develop leisure facilities such as a casino and apply for a (casino) premises licence for that part of the track.

7.6 There is no special class of betting Premises Licence for a track, but the Act does contain rules which apply specifically to Premises Licences granted in respect of tracks.

7.7 Special rules apply to applicants for a Premises Licence in relation to a track. Most importantly the applicant need not hold an operator licence. That is because, unless the occupier of the track wishes to offer pool betting (or general betting) facilities himself (for which he will need a licence) the betting that is provided upon the track will not be provided by him, but will be provided by other operators who come on-course. Since those people will require the necessary Operator Licences, the Act allows the track operator to obtain a Premises Licence without also having to hold an Operator Licence. This 'Track Premises Licence' then authorises anyone upon the premises with a valid Operator Licence to offer betting facilities.

7.8 Track premises licences are distinguished from all other premises licences because children and young persons are allowed to be present on the track while betting is taking place on those licensed premises.

7.9 Track premises that safeguard the achievement of the three licensing objectives may generally be considered fit for gambling, and some general principles whereby licensing authorities can establish whether a track is fit for the provision of gambling facilities are as follows:

Licensing objective	Issues to consider	Reason to consider a track premises unfit for gambling purposes?
<p>The protection of children and other vulnerable persons from being harmed or exploited by gambling</p>	<p>Tracks permit access to children.</p>	<p>No - Children are allowed access to tracks on race days.</p>
	<p>Self-service betting terminals in areas where there is no supervision which would allow children or young persons to use machines undetected.</p>	<p>No - It is a mandatory condition of the operating licence that operators ensure that self-service betting terminals are supervised. This is not an issue for the premises licence.</p>
	<p>Children are allowed access to areas holding category B and C gaming machines.</p>	<p>It is a mandatory condition of the operating licence that operators ensure that children are not allowed access to areas where category B and C gaming machines are provided.</p> <p>However, section 182 of the Act also creates a premises licence condition that children and young persons must be excluded from areas where any gaming machines other than category D are located.</p>
	<p>Betting areas adjacent to areas where children/young persons are present such as play areas</p>	<p>No - Children are allowed access to tracks on race days and so will be exposed to gambling areas. It is a mandatory condition of the operating licence that operators do not accept bets from children or young persons.</p>
	<p>Betting areas adjacent to areas where children/young persons are present such as play areas</p>	<p>The Commission considers that the location of betting does not generally pose a risk to this licensing objective. Licensing authorities may impose their own local conditions where they perceive problems.</p>
<p>Ensure gambling is conducted in a fair and open way</p>	<p>The rules of betting are not displayed on the premises.</p>	<p>No (not an issue at application stage) - it is a mandatory condition of the premises licence that the rules of betting are displayed.</p>
	<p>Unlicensed betting operators are allowed to operate on tracks.</p>	<p>No (not an issue at application stage) - it is a mandatory condition of the premises licence that licence holders make arrangements to ensure that they only allow licensed operators on track.</p>

	Betting takes place out of approved hours.	No (not an issue at application stage) - it is a mandatory condition of the premises licence that betting only takes place within the specified hours.
Prevent gambling from being a source of crime and disorder	Betting is allowed in all parts of a track resulting in greater difficulties for track premises licence holders to identify instances of illegal Betting.	No - the Commission's view is that this does not generally pose a risk to this objective. Licensing authorities may impose their own conditions should they perceive a problem.
	No formal exit/entry points allowing easy access for unapproved operators and customers.	No - the Commission's view is that this does not generally pose a risk to this objective. Licensing authorities may impose their own conditions should they perceive a problem.

The Licensing Authority will take any such guidance into consideration when determining an application for a track premises licence.

Access to premises and other parts of the track:

7.10 Access between premises licensed for gambling and non-gambling areas is an important local licensing consideration, for reasons such as the following:

- to prevent operators from seeking to circumvent the Act by artificially subdividing a premises and securing separate premises licences for its composite parts;
- to ensure that operators do not circumvent regulations governing the maximum number of gaming machines applicable to specific premises;
- to ensure that people who have entered a premises for one type of gambling are not exposed to another, potentially harder, form of gambling;
- to ensure that there is no direct access between gambling premises to which children have access and those which they are prohibited from entering;
- to ensure that all gambling premises have publicly accessible entrances; and
- to ensure that gambling premises are not developed in the backrooms of other commercial premises.

Access by children – special dispensation for tracks:

7.11 The Act forbids all persons under 18 years old to enter premises when betting facilities are being provided, other than at tracks. This dispensation allows families to attend premises such as greyhound tracks or racecourses on event days, and children to be permitted into areas where betting facilities are provided, such as the betting ring, where betting takes place. This dispensation does not, however, apply to:

- areas within a track where category C or above machines are provided; or
- other premises to which under 18 year olds are specifically not permitted access.

Licensed betting operators at tracks are bound by their operating licence conditions which prevent them from accepting bets from persons who are under 18 years old. The track premises licence holder is also required through premises licence conditions

to display a notice in a prominent place at every public entrance stating that no person under the age of 18 is permitted to bet on the premises.

There may be some specific considerations with regard to the protection of children and vulnerable persons from being harmed or exploited by gambling, the need to ensure entrances to each type of premises are distinct and that children are excluded from gambling or betting areas where they are not permitted to enter.

- 7.12 Children and young persons will by law be permitted to enter track areas where facilities for betting are provided on days when dog racing and/or horse racing takes place, although they are still prevented from entering areas where gaming machines (other than category D machines) are provided. The Licensing Authority will normally expect Premises Licence applicants to demonstrate suitable measures to ensure the children do not have access to adult only gambling facilities.

Appropriate measures may include:

- Proof of Age schemes
- CCTV
- Door Supervisors
- Supervision of entrances/machine areas
- Physical separation of areas
- Location of entry
- Notices/signage
- Specific opening hours
- The location of gaming machines
- Self barring schemes
- Provision of information leaflets/helpline numbers for organisations such as GamCare or Be Gamble Aware.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

Betting on event and non-event days:

- 7.13 **Hours of betting on event days:** Premises licence holders will be expected to comply with the mandatory and default conditions applicable to them on both event and non-event days. The licensing authority will not generally expect to re-assess a licence application as a result of a change to the dates of sporting events, but would expect applicants and licence holders to make information about sporting fixtures available as part of the application.

Significant changes to the fixture/events listing have a bearing on the licence conditions in that track premises licence holders will be expected to comply with the mandatory and default conditions applicable to them on both event and non-event days.

- 7.14 **Hours of betting on non-event days:** On days when no public sporting event is taking place on a track, gambling facilities may only be provided on the track between the hours of 7am and 10pm. Where the premises user intends to continue to offer facilities for gambling outside the proposed gambling hours on non-event days these facilities should be provided by virtue of an Occasional Use Notice (OUN).

7.15 On non-event days, tracks become similar to licensed betting offices on the high street. Tracks may achieve this requirement by:

- locating all betting areas inside an area of the premises that is separated from the remainder of the premises by a physical barrier, thereby preventing access other than through a designated entrance;
- only admitting adults to the part of the track where betting areas are located, by establishing procedures for verifying customer ages and refusing entry to adult-only areas for those unable to produce an acceptable form of identification (and taking action where there are unlawful attempts to enter adult-only areas); and
- placing prominent notices in front of and inside each entrance stating that access to the area is prohibited to persons under 18.

7.16 The Licensing authority may consider reducing the default gambling hours, providing any reduction is consistent with the principles set out in section 153 of the Act.

Self-service betting terminals

7.17 Licensed operators may install self-service betting terminals on tracks. There is no restriction on the number of self-service betting terminals that may be in use but operators must, by virtue of their operating licence conditions, supervise such terminals to prevent them being used by those under 18 years of age.

There is no formal requirement on track premises licence holders to involve themselves in the procedures used by betting operators to supervise their self-service betting terminals unless specific local conditions specifying supervisory arrangements are added to the track premises licence by the licensing authority.

Gaming machines

7.18 A track premises licence does not of itself entitle the holder to provide gaming machines, as this type of premises licence can be held without any corresponding operating licence.

Where a track owner holds both a track premises licence *and* a pool betting operating licence issued by the Commission (in effect, greyhound tracks only), they may site up to four gaming machines within categories B2 to D on the track.

Some tracks may also hold a premises licence under the Licensing Act 2003. As such they will be automatically entitled under section 282 of the Act to two gaming machines of category C or D.

In such scenarios the operating licence entitlement does not take precedence, and each licence has its own requirements that must be complied with.

7.19 Applications for permits to allow additional gaming machines are not permitted where the premises is already covered by a track premises licence. It is a condition of section 282 of the Act that alcohol-licensed premises licence holders (not necessarily the owners) must comply with any relevant provision of a code of practice under section 24 about the location and operation of a gaming machine. The gaming machine permits code of practice can be found on the Gambling Commission's website.

7.20 Where track premises licence holders possess a pool betting operating licence, the Commission places a mandatory licence condition on such operators that they must:

- have and put into effect documented policies and procedures to prevent underage gambling; and
- monitor the effectiveness of these.

Track administration:

7.21 **Administration of betting:** Administrative and quasi-regulatory arrangements in place to ensure that activities held on tracks run smoothly for paying customers, track operators and betting operators are considered to be outside the remit of the Act unless they affect the licensing objectives.

7.22 **The role of track premises licence holders:** The responsibilities of track premises licence holders are established by the mandatory and default licence conditions attaching to their premises licence.

The licensed betting operators authorised by track owners to provide betting facilities at tracks must comply with their operating licence conditions and codes of practice issued by the Commission.

Track premises licence holders have a responsibility to report regulatory breaches or potential breaches relating to the premises itself or to betting operators.

7.23 **Acceptance of bets:** Track premises licences for greyhound tracks and racecourses are subject to mandatory licence conditions requiring access to be offered at the track-side to betting operators generally. This prevents track premises licence holders who are also pool betting operators from becoming a monopoly supplier of betting on tracks.

While this does not mean that there must be independent betting operators on tracks, on event days, track premises licence holders cannot hold event days without at least making places available to licensed operators. This matter is the responsibility of the Gambling Commission and not the Licensing Authority.

Pool betting:

7.24 Under the Act, holders of track premises licences on licensed greyhound tracks are given exclusivity to offer pool betting facilities on greyhound racing. They may also authorise other people to conduct such pool betting on their behalf, although in all cases a relevant operating licence will be required to license this activity.

A totalisator on a licensed greyhound track will only be permitted while the public are admitted to the track for the purpose of attending greyhound races, and no other sporting events are taking place. A mandatory condition is attached to the premises licence to this effect.

Admission of betting operators:

7.25 It is a mandatory premises licence condition of track premises licences that the licence holder makes arrangements to ensure that the betting operators they admit to their track operate under valid operating licences.

Track premises licence holders are responsible for determining their own arrangements for the verification of betting operators. As part of this process, the track premises licence holder should make arrangements for ensuring that the betting

operator holds an operating licence. Additionally, both parties should agree a procedure for assessing that persons accepting bets on behalf of a betting operator either themselves hold operating licences in their own right, or are employed by the operator under a written contract of employment.

Removal of illegal betting operators:

- 7.26 Track premises licence holders are required by a mandatory licence condition to take reasonable steps to remove from the racecourse anybody found to be providing facilities for gambling without authorisation. Failure to uphold this requirement could result in action being taken against the premises licence holder.

Track premises licence holders should have policies and procedures for identifying illegal gambling in addition to the mandatory requirement to verify that betting operators offering betting facilities on their track hold suitable operating licences.

Display of rules:

- 7.27 It is a mandatory condition of premises licences that clear and accessible information about the terms on which a bet may be placed must be displayed at betting premises, including tracks.

The track premises licence holder should make the necessary arrangements to ensure that betting rules are accessible to all customers, regardless of which area of the track they are in. If certain areas are restricted to certain customers (such as different stands within a football ground) then rules could be displayed at various parts of the track. Other measures could be taken to ensure that they are made available to the public, such as printing them in the race-card or programme. The requirement could also be met by making a copy of the rules available in leaflet form from the main track office, and customers could be given a copy if they request one.

Betting operators offering betting facilities on racecourses and at greyhound tracks are required through the conditions of their operating licence to clearly display any of their own rules that differ from those that the track premises licence holder elects to display, and their rules concerning voids, late bets, and maximum payouts. For racecourses and greyhound tracks, the maximum payout will vary according to the rules of individual on-course operators.

Approved betting areas:

- 7.28 **Betting areas:** In considering applications, the licensing authority will take into account the licensing objectives and assess whether these objectives are compromised by proposed betting arrangements. The location of betting areas (other than those for gaming machines and self-service betting terminals) is not considered a threat to the licensing objectives and therefore no additional conditions would normally be imposed by licensing authorities, unless the circumstances are such that the Licensing Authority considers that the licensing objectives would be undermined.
- 7.29 **Multiple licences:** The Act permits a Licensing Authority to issue more than one premises licence for a track provided that each licence relates to a distinct specified area of the track (although there cannot be more than one premises licence covering the same area of the track.) This enables track owners to extend existing facilities to provide other gambling facilities such as a casino on their existing tracks, whereby these additional gambling activities are covered by separate premises licences.

Where an application is made for an additional premises licence, the Licensing Authority will consider the following matters when determining an application:

- access issues in particular whether access to the desired premises will be allowed directly from the track. Direct access between a track and other betting premises (other than a track betting shop) is not permitted. The track owner would need to make arrangements so that access to a casino or bingo hall would be via a street, not via the track itself.

Where a particular area of a track is already subject to a premises licence, and a person wishes to apply for a licence to offer another type of activity in that area, an application must be made to the Licensing Authority to vary the original premises licence. The new track premises licence can only be granted at the same time as, or after, the original licence has been varied.

Where the Licensing authority receives an application indicating separate betting areas that may not necessarily have clear physical boundaries, such as walls or fencing, it may grant the licence where it is satisfied that the area is clearly delineated, both in terms of making it clear to the public that they are entering a 'betting office', and to keep out persons aged under 18.

Where the Licensing Authority is not satisfied that a new activity in an existing area is clearly delineated, it may consider refusing the application.

Social responsibility considerations for tracks:

- 7.30 The Act places a condition on the track premises licence that the licensee shall ensure that children and young persons are excluded from any area where facilities for betting are provided (unless on race days at racetracks and at greyhound tracks).

8. Provisional Statements

- 8.1 An applicant may apply for a full premises licence where the premises are uncompleted or unaltered. However an applicant for a provisional statement does not need the right of occupation or an operator licence (granted or applied for), which are required in order to apply for a premises licence.
- 8.2 An application may be made to the Licensing Authority, under section 204 of the Act, for a provisional statement in respect of premises that the applicant expects to;
- be constructed;
 - be altered; or
 - acquire a right to occupy.

An application may also be made for a provisional statement for premises, which already has a premises licence (either for a different type of gambling or the same type).

- 8.3 When considering an application for a provisional statement the Licensing Authority shall have due regard to the guidance issued by the Gambling Commission (in particular Part 11). Subject to any necessary modifications, the process for considering an application for a provisional statement is the same as that for a premises licence, including the rights of interested parties and responsible authorities to make representations and rights of appeal.

8.4 If representations about Premises Licence applications, following the grant of a Provisional Statement are received, they may not be taken into account unless they concern matters which could not have been addressed when determining the Provisional Statement, or they reflect a material change in the circumstances of the application. The Licensing Authority must determine the Premises Licence, referring only to matters:

- which could not have been raised by way of representations at the Provisional Statement stage;
- which in the Licensing Authority's opinion reflect a change in the operator's circumstances; or
- where the premises has not been constructed in accordance with the plan and information submitted with the provisional statement application. If there are substantial changes to the plan the Licensing Authority will discuss any concerns with the applicant before making a decision.

8.5 In accordance with section 210 of the Act (which applies to premises licences and provisional statements), the Licensing Authority must not have regard to whether or not a proposal by the applicant is likely to be permitted in accordance with planning or building law.

9. Reviews

9.1 An application for review of a premises licence may be made by:

- an interested party;
- a responsible authority; and
- the Licensing Authority, for :
 - a particular class of premises licence; or
 - in relation to a particular premises.

It is for the Licensing Authority to determine whether the review is to be carried-out.

9.2 Any request for a review should normally relate to matters relevant to one or more of the following:

- any relevant code of practice issued by the Gambling Commission;
- any relevant guidance issued by the Gambling Commission;
- the licensing objectives; and
- the Licensing Authority's statement of principles.

When considering any review request, or whether to instigate its own review, the Licensing Authority will have due regard to the guidance issued by the Gambling Commission and consider;

- each application on its merits;
- whether matters raised in the application are frivolous or vexatious;
- whether the application 'will certainly not' cause it to revoke or suspend a licence, or remove, amend or attach conditions on the licence; or
- whether the request is substantially the same as any previous representations or requests made for a review or previous application for the same premises.

Officers of the Authority may attempt informal mediation or dispute resolution techniques, where practicable, prior to a review being conducted.

- 9.3 A review application must only be determined by a Licensing Sub-Committee, and not by an officer. The purpose of a review is to determine whether the Licensing Authority should take any action in relation to the licence. The Licensing Authority must have regard to the principles set out in section 153 of the Act, as well as any relevant representations. If action is justified, the options are to:
- add, remove or amend a licence condition imposed by the Licensing Authority;
 - exclude a default condition imposed by the Secretary of State (relating to, for example, opening hours) or remove or amend such and exclusion;
 - suspend the premises licence for a period not exceeding 3 months; or
 - revoke the premises licence.

PART C PERMITS/TEMPORARY USE NOTICES, OCCASIONAL USE NOTICES & SOCIETY LOTTERIES

1. **Unlicensed Family Entertainment Centre (unlicensed FEC's) gaming machine permits**

- 1.1 Unlicensed Family Entertainment Centres (FEC's) are commonly located at seaside resorts, in airports and at motorway service stations, catering for families - including unaccompanied children and young persons. Where a premises does not hold a Premises Licence but there is an intention to provide gaming machines (category D only), an application may be made to the Licensing Authority for the grant of this permit. The applicant must be an individual aged 18 or over, and he/she must occupy or plan to occupy the relevant premises. The Licensing Authority may only grant a permit where it is satisfied that the applicant intends to use the premises as an unlicensed FEC and where it has consulted the Chief Officer of Police on the application. Any duties on the applicant to comply with other legislation such as fire regulations or Health and Safety are not issues for the Licensing Authority under the Gambling Act 2005.
- 1.2 If the operator of a Family Entertainment Centre intends to make category C machines available, in addition to category D machines, then an application must be made for an Operator Licence from the Gambling Commission and a Premises Licence from the Licensing Authority (see Part B Section 3 of this document on (Licensed) Family Entertainment Centres).
- 1.3 Details of up to date application requirements, including any supporting documentation, is made available on the Council's website at www.midsuffolk.gov.uk or direct from the Licensing Team.
- 1.4 It should be noted that a Licensing Authority cannot attach conditions to this type of permit.
- 1.5 **Statement of Principles:**

The Licensing Authority will expect the applicant to satisfy it that they and their employees can demonstrate a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FEC's. The applicant is expected to demonstrate that he has considered appropriate measures to promote the licensing objectives, and training for staff on issues such as:

- suspected truant school children on the premises;
- how staff would deal with unsupervised very young children being on the premises;
- children causing problems on or around the premises; and
- maximum stakes and prizes of the gambling that is permissible in unlicensed FEC's

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

- 1.6 The Chief Officer of Police is a statutory consultee for all such permit applications, and any representations made by him/her will be considered by the Licensing Authority.
- 1.7 The Licensing Authority may also require the applicant to provide details of any relevant convictions, (those that are set out in Schedule 7 of the Act), and the following documents would be acceptable for such purposes:
 - disclosure and barring service - basic disclosure; or
 - a police subject access search.

2. (Alcohol) Licensed Premises Gaming Machine Permits

- 2.1 The Act makes provision for premises licensed to sell alcohol for general consumption on the premises to be entitled to make available up to 2 gaming machines, of categories C and/or D. The Licensing Act 2003 premises licence holder needs only to notify the Licensing Authority of this intention and pay the prescribed fee. The Licensing Authority may remove the automatic authorisation in respect of any particular premises only if it is satisfied that:

- provision of the machines is not reasonably consistent with the pursuit of the licensing objectives;
- gaming has taken place on the premises that breaches a condition of section 282 of the Gambling Act for example the gaming machines have been made available in a way that does not comply with requirements on the location and operation of gaming machines;
- the premises are mainly used for gaming; or
- an offence under the Gambling Act has been committed on the premises.

Before making any such order the Licensing Authority shall give the licensee at least 21 days prior notice and consider any representations made by the applicant (at a hearing if requested by the Licence holder).

- 2.2 If a Licensing Act 2003 premises licence holder wishes to use more than 2 gaming machines, then (s)he will need to apply to the Licensing Authority for a permit and the Licensing Authority must consider that application based upon:
 - the licensing objectives;
 - any guidance issued by the Gambling Commission; and

- “such matters” as they think relevant.

This Licensing Authority considers that “such matters” will be assessed on a case-by-case basis. Generally there will be regard to the need to protect children and vulnerable persons from harm or being exploited by gambling.

This permit replaces, and is not in addition, to the automatic entitlement notification.

2.3 The Licensing Authority expects the applicant to satisfy it that there will be sufficient measures in place to ensure that persons under the age of 18 do not have access to the adult only category C gaming machines. The applicant may consider appropriate measures to comply with the Gambling Commission’s Code of Practice and monitor access to machines. This may include:

- ensuring that the adult gaming machines are within sight of the bar, or within the sight of staff who can monitor that the machines are not being used by persons under the age of 18;
- notices and signage may also be an appropriate measure/safeguard; and
- the provision of information leaflets / helpline numbers for organisations that give support to vulnerable persons such as GamCare and Be Gamble Aware.

2.4 The holder of a permit to must comply with any code of practice issued under section 24 of the Act by the Gambling Commission concerning the location and operation of the gaming machines.

2.5 It should be noted that the Licensing Authority can and may decide to grant the application with a smaller number of machines and/or a different category of machines than that applied for. Conditions (other than these) cannot be attached to the grant of this permit.

There is a similar mechanism for applying to vary the number and category of machines specified on an existing permit.

3. Prize Gaming and Prize Gaming Permits

3.1 Statement of principles:

The prize gaming conditions in the Act are:

- the limits on participation fees, as set out in regulations, must be complied with;
- all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day; the game must be played and completed on the day the chances are allocated; and the result of the game must be made public in the premises on the day that it is played;
- the prize for which the game is played must not exceed the amount set out in regulations (if a monetary prize), or the prescribed value (if non-monetary prize); and
- participation in the gaming must not entitle the player to take part in any other gambling.

It should be also noted that this permit cannot be issued in respect of a vessel or vehicle.

An application may only be made by an individual over the age of 18, who occupies or plans to occupy the relevant premises. An application for a permit cannot be made if a premises licence or club gaming permit is already in effect for the same premises.

3.2 The Licensing Authority will expect the applicant to satisfy the Authority that they and their employees can demonstrate a full understanding of the maximum stakes and prizes for the gaming offered and that the type of gaming offered is within the law. The applicant will normally be required to set out the types of gaming that he/she is intending to offer, and may wish to consider appropriate measures to promote the licensing objectives, and training for staff on:

- the type of gaming which they intend to provide; and
- the stakes and prizes which apply under the regulations relevant to the type of gaming they intend to offer.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

3.3 In making its decision on an application for this permit the Licensing Authority may have regard to the licensing objectives and must have regard to any Gambling Commission Guidance. Given that the premises may be particularly appealing to children and young persons, the Licensing Authority will give appropriate weight to the consideration of child protection issues.

3.4 The Chief Officer of Police is a statutory consultee for all such permit applications. Any representations made by the Chief Officer of Police which are relevant to the licensing objectives will be considered by the Licensing Authority, relevant considerations may include:

- whether the applicant has any convictions that would render them unsuitable to operate prize gaming, or
- the suitability of the location of the premises in relation to any disorder issues.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

3.5 It should be noted that whilst there may be conditions in the Gambling Act 2005 and Gambling Commission's codes of practice (including on social responsibility) with which the permit holder must comply, the Licensing Authority cannot attach conditions to this permit. Where the Authority is minded to refuse a permit application it will notify the applicant and allow the opportunity for the applicant to make representations (which may be considered at a hearing).

4. Club Gaming Permits

4.1 Members' Clubs and Miners' Welfare Institutes (but not Commercial Clubs) may apply for a Club Gaming Permit which authorises the premises to:

- make available for use up to 3 gaming machines of categories B3A to D (only one B3A can be made available as part of this entitlement);
- equal chance gaming (without restriction on the stakes and prizes); and

- games of chance as prescribed by regulations (namely pontoon and chemin de fer).

The gaming which a club gaming permit allows is subject to the following conditions:

In respect of equal chance gaming:

- The club must not deduct money from sums staked or won;
- The participation fee must not exceed the amount prescribed in regulations; and
- The game takes place on the premises and must not be linked with a game on another set of premises. Two games are linked if:
 - (i) The result of one game is, or may be, wholly or partly determined by reference to the result of the other game; or
 - (ii) The amount of winnings available in one game is wholly or partly determined by reference to the amount of participation in the other game, and a game which is split so that part is played on one site and another part is played elsewhere is treated as two linked games.

Only club members and their genuine guests participate.

In respect of other games of chance:

- (i) the game must be pontoon and chemin de fer only;
- (ii) no participation fee may be charged otherwise than in accordance with the regulations; and
- (iii) no amount may be deducted from sums staked or won otherwise than in accordance with the regulations.

4.2 Members' clubs must have at least 25 members and be established and conducted 'wholly or mainly' for purposes other than gaming, unless the gaming is permitted by separate regulations. The Secretary of State has made such regulations covering bridge and whist clubs. A members' club must be permanent in nature and established and conducted for the benefit of its members and not as a commercial enterprise. Examples include working men's clubs, branches of Royal British Legion and clubs with political affiliations.

A club gaming permit may not be granted in respect of a vehicle or a vessel.

4.3 The Licensing Authority may only refuse an application on the grounds that:

- a) the applicant does not fulfil the requirements for a members' club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied;
- b) the applicant's premises are used wholly or mainly by children and/or young persons;
- c) an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
- d) a permit held by the applicant has been cancelled in the previous ten years; or
- e) an objection has been lodged by the Gambling Commission or the Suffolk Constabulary.

Where the Licensing Authority is satisfied that (a) or (b) is the case, it must refuse the application. In determining an application the Licensing Authority shall have regard to the relevant guidance issued by the Gambling Commission and, subject to that guidance, the licensing objectives.

4.4 Where a permit is granted, the permit holder must comply with statutory conditions:

- no child or young person may use a category B or C machine on the premises; and
- the permit holder must comply with any relevant provision of a code of practice regarding the location and operation of gaming machines.

Clubs do not have to have a permanent premises or alcohol licence.

4.5 There is a 'fast-track' procedure available for premises where the club holds a Club Premises Certificate under section 72 of the Licensing Act 2003. Where an application is made under the fast track procedure, there is no opportunity for objections to be made by the Commission or the Suffolk Constabulary, and the grounds upon which an Authority can refuse a permit are limited as below:

- the club is established primarily for gaming, other than gaming of a prescribed kind
- in addition to the prescribed gaming, the applicant provides facilities for other gaming; or
- a club gaming permit or club machine permit issued to the applicant in the last ten years has been cancelled.

5. Club Machine Permits

5.1 Members' Clubs and Miners' Welfare Institutes and Commercial Clubs may apply for a Club Machine Permit, which enables the premises to make available for use up to 3 gaming machines of categories B3A to D (only one B3A can be made available as part of this entitlement (Members clubs and Miner's welfare institutes only (i.e. not commercial clubs))).

5.2 Members' clubs must have at least 25 members and be established and conducted 'wholly or mainly' for purposes other than gaming, unless the gaming is permitted by separate regulations. The Secretary of State has made such regulations covering bridge and whist clubs. A members' club must be permanent in nature and established and conducted for the benefit of its members and not as a commercial enterprise. Examples include working men's clubs, branches of Royal British Legion and clubs with political affiliations.

Commercial clubs must have at least 25 members, but may be established with a view to making a profit, which is not returned to the members, but the proprietor(s) of the club. Examples of commercial clubs include snooker clubs, clubs established for personal profit and most clubs established as private companies.

5.3 The Gambling Commission's Guidance advises that Licensing Authorities may only refuse an application on the grounds that:

- the applicant does not fulfil the requirements for a members' or commercial club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied;
- the applicant's premises are used wholly or mainly by children and/or young persons;
- an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
- a permit held by the applicant has been cancelled in the previous ten years; or
- an objection has been lodged by the Gambling Commission or the Police.

It should be noted that either type of permit may not be issued in respect of a vessel or vehicle.

5.4 There is also a 'fast-track' procedure available for premises where the club holds a Club Premises Certificate under section 72 of the Licensing Act 2003. Under the fast-track procedure there is no opportunity for an objection to be made by the Commission or the Police, and the grounds upon which an Authority can refuse a permit are reduced. The grounds on which an application under the process may be refused are that:

- the club is established primarily for gaming, other than gaming of a prescribed kind;
- in addition to the prescribed gaming, the applicant provides facilities for other gaming; or
- a club machine permit issued to the applicant in the last ten years has been cancelled.

5.5 There are statutory conditions concerning Club Machine Permits that no child or young person may use a category B or C machine on the premises and that the permit holder complies with any relevant provision of a code of practice regarding the location and operation of gaming machines.

6. Temporary Use Notices

6.1 Temporary Use Notices (TUNS) allow the use of premises for gambling where there is no Premises Licence but where a licensed gambling operator wishes to use the premises for providing facilities for equal chance gaming. The Gambling Commission's Guidance suggests that premises that might be suitable for TUNS include hotels, conference centres and sporting venues, and that equal chance gaming may include games such as backgammon, mah-jong, rummy, kalooki, dominoes, cribbage, bingo and poker (but may not be provided by means of a machine).

6.2 There are a number of statutory limits that apply in respect of Temporary Use Notices, including that a TUN may only be granted to a person or company holding a relevant Operator Licence, in effect a non-remote Casino Operating licence, and limitations on the number of times a 'set of premises' can be used under these provisions.

6.3 A 'set of premises', as referred to in section 218 of the Act, is the subject of a Temporary Use Notice if any part of the premises is the subject of a notice. This reference to 'premises' is not the same as that in Part 8 of the Act (see Part 7 of the Gambling Commission Guidance) and prevents one large premises from serving TUNS for different parts of the premises and exceeding the statutory limit of 21 days in any 12 month period.

6.4 The Licensing Authority will take into account the Gambling Commission's Guidance when considering whether a place falls within the definition of a 'set of premises'. This consideration may include looking at the ownership, occupation and control of the premises. The Gambling Commission's Guidance advises that being a new type of permission, Licensing Authorities should be ready to object to notices where it appears that their effect would be to permit regular gambling in a place that could be described as one set of premises.

6.5 Where a notice of objection is received in respect of a Temporary Use Notice, the Licensing Authority will hold a hearing and consider representations from:

- the person who gave the notice;
- any person who objected to the notice; and
- any party who was entitled to receive a copy of the Temporary Use Notice.

Where all parties agree that a hearing is unnecessary, the hearing may be dispensed with.

6.6 Where objections are made, a modification to the Temporary Use Notice may be proposed, which could include a:

- reduction in the number of days when gambling occurs; and/or
- restriction on the type of gambling which may take place.

6.7 Where, following a hearing, or after a hearing has been dispensed with, the Licensing Authority considers that the temporary use notice should not have effect, it must issue a counter notice which may:

- prevent the temporary use notice from taking effect;
- limit the activities that are permitted;
- limit the time period of the gambling; and/or
- allow the activity to take place subject to a specified condition.

6.8 The principles which the licensing authority will apply in determining a TUN are those which it will apply when determining a premises licence, subject to its view as to whether it accords with:

- a Gambling Commission's code of practice;
- the Guidance issued by the Gambling Commission;
- this Licensing Authority's statement of principles; and
- is reasonably consistent with the licensing objectives.

7. Occasional Use Notices

7.1 Occasional Use Notices (OUNS) permit licensed betting operators (with appropriate permission from the Gambling Commission) to use tracks for short periods for conducting betting, where the event upon which the betting is taking place is of a temporary, infrequent nature. The OUN dispenses with the need for a Betting Premises Licence for the track in these circumstances.

7.2 The OUN must be served by a person who is responsible for the administration of events on the track or by an occupier of the track.

- 7.3 The Licensing Authority will ensure that the statutory limit of 8 days in a calendar year is not exceeded. The Licensing Authority must consider the definition of a 'track', which need not be a permanent fixture, and whether the applicant is eligible to serve the notice.

8. Travelling Fairs

- 8.1 It is the duty of the Licensing Authority to decide whether, where category D machines and / or equal chance prize gaming without a permit are made available for use at travelling fairs, the statutory requirement that the facilities for gambling amount to no more than an ancillary amusement at the fair is met.

- 8.2 The Licensing Authority will carefully consider whether an operator falls within the statutory definition of a travelling fair (provided by section 286 of the Act) and be 'wholly or principally' providing amusements.

- 8.3 The 27-day statutory maximum for the land being used as a fair, is per calendar year, and that this applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. The Licensing Authority shall endeavour to work with neighbouring authorities to ensure that land, which crosses district/borough boundaries, is monitored so that the statutory limits are not exceeded.

9. Society Lotteries

- 9.1 The Council as the Licensing Authority is responsible for registering small society lotteries. A lottery is defined under the Act and in the guidance as:

A **simple lottery** if:

- persons are required to pay to participate;
- one or more prizes are allocated to one or more members of a class; or
- the prizes are allocated by a process which relies wholly on chance.

A **complex lottery** if:

- persons are required to pay to participate;
- one or more prizes are allocated to one or more members of a class;
- the prizes are allocated by a series of processes; or
- the first of those processes relies wholly on chance.

A society, or any separate branch of such a society, may be registered by the council to promote a small lottery where it is established and conducted for:

- charitable purposes (as defined in section 2 of the Charities Act 2006);
- the purpose of enabling participation in, or of supporting, sport, athletics or a cultural activity; or
- any other non commercial purpose other than private gain.

The proceeds of the lottery must be devoted to the purposes above. The society must not be established for the sole purpose of facilitating lotteries.

A small lottery is defined in the Act and the current limits are published on the Council website at www.midsuffolk.gov.uk Definitions of exempt lotteries are also published at the above address.

- 9.2 The Council may only register a society which wishes to promote a small lottery where the society's principal office is located within its area. If the Council believes that the society's principal office does not fall within its boundaries it will inform the society at the earliest opportunity.

If the society's status is unclear, the Council may ask for the society applying to register with it to supply a copy of its terms of reference or constitution to enable it to establish that the society is non-commercial, together with a declaration to the effect that it is non-commercial.

- 9.3 Registration of small society lotteries is a function which the Council has delegated to officers. Details of societies registered by the council will be published in a register maintained by the Council.

The registration is for an indefinite period unless the registration is cancelled by:

- the society; or
- the council on failure of the society to pay the annual charge.

- 9.4 The council may refuse to register a small society lottery where:

- an operating licence held by the applicant for registration has been revoked or an application for an operating licence made by the applicant for registration has been refused within the past five years;
- the society cannot be deemed non-commercial;
- a person who will or may be connected with the promotion of the lottery has been convicted of a relevant offence; or
- information provided in or with the application for registration is found to be false or misleading.

Where the Council proposes to refuse to register a small society lottery it will give the society an opportunity to make representations in writing or at a hearing. The Council will notify the society in writing of the outcome of the hearing and the reasons for the decision.

- 9.5 The Council may revoke a society lottery registration where it considers that it would have had to, or would be entitled to refuse an application if it were to be made at that time.

SCHEDULE D

Gambling Activities: Children and Young Persons

A **Child** means an individual who is less than 16 years old (section 45(1)).

A **Young Person** is an individual aged 16 or 17 years old (section 45(2)).

With limited exceptions, the intention of the Gambling Act 2005 is that children and young persons should not be permitted to gamble and should be prevented from entering those gambling premises which are adult only environments.

Part 4 of the Gambling Act 2005 states the requirements in relation to protection of children and young persons, principle offences and any exceptions.

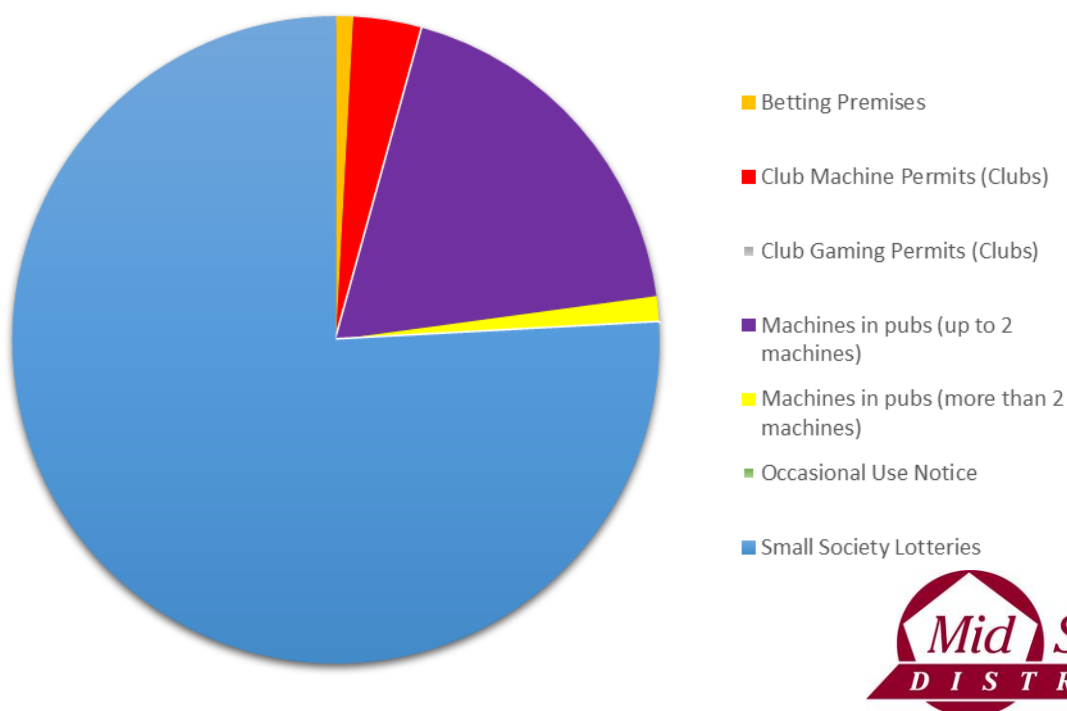

SCHEDULE E

Local Area Profile and Risk Assessments

Licensing authorities are already familiar with a risk-based approach to compliance, and targeting resources and effort where risk is greatest. The local area profile is simply a way of describing a process of gathering and presenting information about a locality and any particular areas of concern within that, to explain and underpin the approach that the licensing authority will apply. It gives clarity to operators as to the licensing authority's view of risk and the relevant factors in its decision making.

The Licensing Authority understands the need for ongoing engagement with other prescribed statutory bodies, defined as Responsible Authorities under the Act. The Licensing Authority will seek to draw upon the expertise and knowledge of responsible authorities and others to ensure its approach is informed by all relevant sources of local knowledge and expertise, when developing local area profiles.

GAMBLING ACT 2005 ACTIVITY MID SUFFOLK DISTRICT - MID 2018

1. (a) As of mid-2018 Mid Suffolk District Council authorises 2 licensed gambling premises. These premises consist of betting premises (non-track) and are based within the main market town of Stowmarket.
- (b) The majority of non-premises licensed gambling activity in the district relates to notifications and permits for gaming machines, gaming in members clubs and pubs. The Licensing Authority also deals with a significant number of enquiries around non-commercial equal chance gaming and enquiries made for activities not requiring any gambling authorisation – subject to limitations. Small society lottery registrations are also a main area of activity (with around 176 registered societies in Mid Suffolk mid-2018) mostly for the benefit of (non-private gain) good causes within the district.

- (c) At the time of preparing this edition of the statement of principles there has been no evidence, or intelligence, presented to Mid Suffolk District Council to support any assertion that any part of the district had or is experiencing problems from gambling activities. This position will be kept under review and, in the event that it changes, further research will be carried out to discover the extent of the problems and to prepare an area profile accordingly which will identify, quantify and map the vulnerabilities and other relevant features of the local area. The statement of principles may be revised as a consequence.
- (d) Gambling premises have not featured on any night time economy police statistics/hot-spots and the Licensing Authority has received no representations at the time of applications or variations, beyond comments from residents relating to 'commercial need' or 'demand' for gambling premises (see 1.7 of this statement of principles).
- (e) The Licensing Authority will monitor any local concerns brought to its attention in the future, along with any linked crimes, and/or representations; with a view to identifying areas of concern and mapping vulnerabilities.
2. (a) The Gambling Commission issue codes of practice under section 24 of the Gambling Act 2005, about the manner in which facilities for gambling are provided to ensure that:
- gambling is conducted in a fair and open way;
 - children and other vulnerable people are protected from being harmed or exploited by gambling; and
 - assistance is made available to people who are, or may be, affected by problems related to gambling.
- (b) Codes of practice are either:
- Social responsibility code** provisions - which must be adhered to by all licence holders; or
- Ordinary code** provisions – these do not have the status of licence conditions but failure to take account of them can be used as evidence in criminal or civil proceedings.
- (c) New code provisions covering risk assessments and local authority area profiles are due to come into force in April 2016 (outside of the timeframe of this statement of principles revision). More detail can be found by going to the Gambling Commission website at www.gamblingcommission.gov.uk

The following are extracts relating to this aspect:

- Operators will be required to prepare a risk assessment for their business which takes into account the nature and characteristics of the locality in which they are situated. For example the proximity of schools, churches, etc. and/or whether the business is located on a walking route for local schools.
- Licensees must assess the local risks to the licensing objectives posed by the provision of gambling facilities at each of their premises, and have policies, procedures and control measures to mitigate those risks. In making risk assessments, licensees must take into account relevant matters identified in the licensing authority's statement of principles.

- Licensees must review (and update as necessary) their local risk assessments:
 - to take account of significant changes in local circumstances, including those identified in a licensing authority's statement of licensing policy;
 - when there are significant changes at a licensee's premises that may affect their mitigation of local risks;
 - when applying for a variation of a premises licence; and
 - in any case, undertake a local risk assessment when applying for a new premises licence.

- (d) For all non-remote casino, adult gaming centre, bingo, family entertainment centre, betting and remote betting intermediary (trading room only) licences, except non-remote general betting (limited) and betting intermediary licences, licensees should share their risk assessment with licensing authorities when applying for a premises licence or applying for a variation to existing licensed premises, or otherwise on request.

- (e) Such risk assessments can make reference to the Local Authority Area profile which may be compiled with respect to reported gambling-related problems in an area.
