Has the application been subject to Pre-Application Advice: Yes

PART ONE – REASON FOR REFERENCE TO COMMITTEE

The application is referred to committee for the following reason/s:

The applicant is Babergh District Council

Details of Previous Committee/Resolutions and Member Site Visit: None

PART TWO – POLICIES AND CONSULTATION SUMMARY

Summary of Policies

CLASSIFICATION: Official

CN06 - Listed Buildings - Alteration/Ext/COU
CS15 - Implementing Sustainable Development

Neighbourhood Plan Status

This application site is within a Neighbourhood Plan Area.

The Neighbourhood Plan is currently at:-
Stage 1: Designated neighbourhood area

Accordingly, the Neighbourhood Plan has little weight.

Consultations and Representations

During the course of the application Consultation and Representations from third parties have been received. These are summarised below.

A: Summary of Consultations

Town/Parish Council

Hadleigh Town Council: No comments

National Consultee

Historic England: No comments

Internal Consultee Responses

Place services – Heritage: No objection. Recommend conditions from the previously consented scheme are carried across to this approval.

B: Representations

At the time of writing this report no letters/emails/online comments have been received

PLANNING HISTORY

There is an extensive planning history relating to the broader site that is subject to proposed redevelopment, none of which is of relevance to this listed building consent application. Below is the history relating to the redevelopment. Also please note the applications lodged concurrently for minor changes to the broader development site that the subject buildings form a part of, including the applications for listed building consent relating to four other listed buildings.

REF: DC/18/04966

Full Planning Application - Redevelopment to provide 57 dwellings (Use Class C3) with private amenity areas, parking, fencing, landscaping, open space and refuse

DECISION: GTD
09.03.2021

facilities, access roads and associated works and infrastructure, incorporating the part demolition and part retention and conversion of the existing office buildings (including the retention and conversion of The Maltings, No's 21 & 23 Bridge Street, River View & The Cottage & demolition of Bridge House), site of the former Babergh District Council Offices & associated land.

REF: DC/21/03774	Application for listed Building Consent. Minor amendments to previously approved LBC ref: DC/18/05018 (Malthouse) as per Design & Access Statement.	DECISION: PCO

PART THREE – ASSESSMENT OF APPLICATION

1.0 The Site and Surroundings

- 1.1. The site is located on the western side corner of Bridge Street, to the north of the Hadleigh town centre. The subject Grade II listed building forms part of a much broader site proposed for redevelopment, comprising the former Babergh District Council offices complex.
- 1.2. The two-storey building has direct frontage to Bridge Street. The building is located between 21 Bridge Street, a Grade II* listed building, and the Maltings building, a Grade II listed building. To the rear is an open courtyard that formed part of the former council complex.
- 1.3. The site is within Hadleigh Conservation Area and in close proximity to a number of Grade II* and Grade II listed buildings beyond the wider former Council offices site.

2.0 The Proposal

- 2.1. Listed Building Consent is sought for predominantly internal conversion works to the building to form two dwellings. The majority of works relate to the removal and insertion of partition walls.
- 2.2. With regard to openings, all existing windows will be retained and refurbished, with a new system of replacement secondary glazing installed to the Bridge Street windows.
- 2.3. The proposed changes from DC/18/04992 are as follows:

- Minor changes to previously approved internal walls and doors to provide for an additional bedroom to the first floor flat, creating 1 x 2-bedroom flat and 1 x 3-bedroom flat.
- New wooden gate and fence between 21 and 23 Bridge Street

3.0 The Principle Of Development

- 3.1 Section 66 of the Planning (Listed Buildings and Conservation Areas) Act 1990 requires local planning authorities to have special regard to the desirability of preserving listed buildings and their setting or any features of special architectural or historic interest which they possess.
- 3.2 Policy CN06 states that alterations to listed buildings should, amongst other things, be of an appropriate scale, form, siting and detailed design to harmonise with the existing building and its setting.
- 3.3 Paragraph 197 of the NPPF states that, in determining planning applications, local planning authorities should take account of:
- the desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation;
 - the positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and
 - the desirability of new development making a positive contribution to local character and distinctiveness.
- 3.4 The adaptation and re-use of the building is being undertaken without significant alteration to the principal façade and flank elevations. No changes are proposed to the roofscape. The proposed system of replacement secondary glazing is an acceptable heritage response. Externally the building will essentially present no differently in terms of its current domestic villa character. The prominent red brick chimneys and pots are retained. The nineteenth century cast iron veranda to the rear of the villa is retained, as clearly shown on drawing 214E, consistent with the recommendations of the Heritage Consultant.
- 3.5 The conversion works are largely internal, with new partition walls inserted, as is most common with the conversion of historic buildings. The conversion works have generally been well considered, responding positively to the original domestic layout of the building.
- 3.6 The Heritage Consultant recommends a suite of planning conditions to ensure control is retained over the detailed design elements of the scheme. The conditions are reasonable, necessary and appropriate given the building's Grade II listed status. Moreover, the conditions are consistent with well-established heritage practice and meet the tests set out at section 17 of the Planning (Listed Buildings and Conservation Areas) Act 1990.
- 3.8 The revisions from the original approved scheme are minor and will have little impact on the overall design.

PART FOUR – CONCLUSION

4.0 Planning Balance and Conclusion

- 4.1 The listed building is being conserved and great weight is attached to this conservation consistent with paragraph 199 of the NPPF. The works will not result in less than substantial harm to the building or its setting and so paragraph 201 of the NPPF is not engaged.
- 4.2 The proposed conversion works have been designed in a sensitive manner, respectful of the building's valued historic integrity and setting.
- 4.3 The scheme of works does not conflict with local policy CN06 or paragraph 197 of the NPPF. The proposal facilitates the conservation of a heritage asset, consistent with the overarching objective of achieving sustainable development as set out at paragraph 8 of the NPPF.
- 4.4 The re-use of the building secures its long-term future and in so doing preserves the building, together with its special architectural features and historic interest. The proposal is therefore consistent with section 66 of the Planning (Listed Buildings and Conservation Areas) Act 1990.
- 4.5 The proposed works will result in no harm to the character and significance of this listed building.

RECOMMENDATION

That the application is GRANTED listing building consent and include the following conditions:-

- Standard time limit
- Window and door details including joinery colour
- Details of repairs
- All materials/fixtures to new build elements
- Landscaping and public realm details
- Level 3 Archaeological building recording
