

Tabled Papers- DC/21/04549, Heath Road, Thurston

We have had updated responses from both SCC Floods and Water and Highways. Their comments are summarised as follows:

- SCC Floods raise no objection to the proposal but now recommend 4 conditions and standard informatives which are to be added to the officer's recommendation.
 - 1- surface water drainage strategy
 - 2- details of implementation, maintenance and management of strategy
 - 3- surface water verification report
 - 4- construction surface water management plan

- SCC Highways would like an additional condition which is to be added to the Officer's recommendation.
 - 1- bus stop improvements including Real Time Passenger Information Screen (mounted on NAL sockets) and raised kerbs and footway
