- 11.2 Since 2020, Mid Suffolk has installed 126 Air Source Heat Pumps in council owned homes.
- 11.3 Working alongside the Energy Savings Trust, every property within our housing stock (via a desktop exercise) has been evaluated, which has provided the council with current energy efficiency levels compared with what could be achieved and the level of investment required to achieve improved energy efficiency. The 'hardest to heat' homes will be targeted first. This now allows us to quantify the cost of capital environmental works to existing homes.
- 11.4 Oil fired / storage communal heating has been replaced with individual heat pumps.
- 11.5 The new homes 'design and technical specification' that incorporates carbon saving solutions will be launched alongside our 30-year Housing Business Plan, which is currently being developed.
- 11.6 Surveyors have been studying for the Retrofit Co-ordinators Diploma by the Retrofit Academy to better support the Council's ambition to retrofit existing properties.
