

## BABERGH DISTRICT COUNCIL

<b>From: Assistant Director - Corporate Resources</b>	<b>Report Number: S99</b>
<b>To: Strategy Committee</b>	<b>Date of meeting: 12 January 2017</b>

### DRAFT JOINT MEDIUM TERM FINANCIAL STRATEGY AND 2017/18 BUDGET

#### 1. Purpose of Report

- 1.1 To consider the draft Joint Medium Term Financial Strategy (MTFS) and draft 2017/18 Budget, covering the General Fund, Council Housing and Capital Investment.
- 1.2 These reflect the challenges and opportunities facing the Council in the short and medium/long term, the business model that is being put in place to address these and an investment strategy to deliver the Council's strategic priority outcomes as set out in the Joint Strategic Plan.
- 1.3 This report sets out, therefore, how the Council intends to use its available resources and funding to not only achieve the agreed strategic priority outcomes but also realign resources to them and undertake a programme of transformational activities and projects over the medium term.
- 1.4 To enable Members to consider key aspects of the 2017/18 Budgets, including Council Tax and Council House rent levels.

#### 2. Recommendations

- 2.1 That the draft Joint Medium Term Financial Strategy (MTFS) and Budget proposals set out in the report be endorsed, subject to further consideration at the February meeting for recommendation to Council.
- 2.2 That the final General Fund Budget for 2017/18 is based on an increase to Council Tax of £5 per annum (10p per week) for a Band D property, which is equivalent to 3.4%, to support the Council's overall financial position, which will be considered further at the February Strategy Committee meeting.
- 2.3 That the draft Housing Revenue Account (HRA) Investment Strategy 2017/18 to 2021/22 and draft HRA Budget for 2017/18 be agreed, subject to further consideration at the February Strategy Committee meeting.
- 2.4 That rent increases under Pay to Stay for tenants with a household income above £60k is not introduced.
- 2.5 That the mandatory decrease of 1% in Council House rents, equivalent to an average rent reduction of £0.91 a week as required by the Welfare Reform and Work Bill be implemented.
- 2.6 That garage rents be increased by 10% to provide some additional income to the HRA (an average increase of 88 pence per week per garage).

- 2.7 Sheltered Housing service charges to be increased by £4 cap per week for each scheme (set at £2 cap per week last year) to reduce the subsidy by £72k.
  - 2.8 That in principle, Right to Buy receipts should be retained to enable continued development and acquisition of new council dwellings.
  - 2.9 That New Build and Acquisition capital funding is increased to £5m for 2017/18 (increase of £1.5m).
  - 2.10 That Capital Programmes should be planned for one to three years once the stock condition data project has been completed with the view to commissioning a new sample stock condition survey in 2019/20.
  - 2.11 That the revised HRA Business Plan in Appendix D be noted.
  - 2.12 That the proposed Capital Programme in Appendix C be agreed.
- The Medium Term Financial Strategy (MTFS) and Budget will be subject to final determination by the Strategy Committee and Council in February 2017.

**3. Financial Implications**

- 3.1 These are detailed in the report.

**4. Legal Implications**

- 4.1 These are detailed in the report.

**5. Risk Management**

- 5.1 This report is most closely linked with the following Significant Business Risk: - 5f – Failure of the Councils to become financially sustainable in response to funding changes. Key risks are as follows:

<b>GENERAL FUND</b>			
<b>Risk Description</b>	<b>Likelihood</b>	<b>Impact</b>	<b>Mitigation Measures</b>
Failure to plan and identify options to meet the medium term budget gap and savings or additional income not being realised.	Unlikely - 2	Bad - 3	Clear priority outcomes and robust business cases for investment plus use of the Transformation Fund to support the MTFS and an Investment Strategy. Further use of Priority Based Resourcing approach to align resources to priorities

<b>GENERAL FUND</b>			
<b>Risk Description</b>	<b>Likelihood</b>	<b>Impact</b>	<b>Mitigation Measures</b>
Failure to implement cost sharing protocol results in inaccurate or unfair allocation of shared costs and income.	Highly Unlikely - 1	Noticeable - 2	Assessment made for 2017/18 Budget, which will be reviewed further to ensure it is robust and accurate. Amend if circumstances change.
Uncertainty on the level of Business Rates income due to the volatility caused by vacant properties, growth levels and appeals	Unlikely – 2	Noticeable – 2	Finance, Shared Revenues Partnership, and Economic Development working closely to understand the Business Rates base, key rate payers along with appeal projections and horizon scanning
<b>HRA</b>			
Ongoing impacts of the Welfare and Funding Reforms could lead to unpreparedness for further changes.	Unlikely - 2	Bad - 3	Ensure adequate bad debt provision and that the Income Management Strategy seeks to mitigate the impact of the changes on residents, the Council's income streams and budgets.
Council Housing self-financing results in a greater risk to investment and service delivery plans from inflation and other variables.	Unlikely - 2	Noticeable - 2	Inflation and interest rate assumptions have been modelled in the HRA business plan. Capital receipts and capital programme funding reviewed.
Failure to spend retained RTB receipts within 3 year period, will lead to requirement to repay to Government with an additional 4% interest.	Unlikely - 2	Bad - 3	Provision has been made in the updated HRA Investment Strategy to enable match funding and spend of RTB receipts, subject to the announcement of the details of the Housing & Planning Bill measures affecting council housing.

5.2 A full risk assessment on the final Budget proposals will be included in the February report that will set out the key risk areas of expenditure and income that are reflected in the Council's Budget.

## 6. Consultations

6.1 The HRA budget proposals will be presented to the Joint Housing Board meeting in January 2017.

## **7. Equality Analysis**

- 7.1 Equality Analyses will be undertaken for any service areas where significant changes are proposed as a result of the above process.

## **8. Shared Service / Partnership Implications**

- 8.1 The Joint Strategic Plan and MTFS determine and shape the Council's future plans and service provision, with regard to each Council's financial position.
- 8.2 The Budgets for 2017/18 reflect the estimated sharing of costs and savings between the two Councils. However, there are and will be ongoing differences in the detailed financial position of each Council's General Fund and HRA. There will be instances, therefore, when staff resources and money is focused on a specific priority in one Council.
- 8.3 Actual staffing and other costs will have to be reflected in the accounts year on year and funding adjusted accordingly to ensure that each Council's finances are accounted for separately and that costs and benefits from integration and shared services continue to be allocated appropriately to each Council.

## **9. Links to Joint Strategic Plan**

- 9.1 Ensuring that the Council has the resources available is what underpins the ability to achieve the priorities set out in the Joint Strategic Plan.

## **10. STRATEGIC CONTEXT**

- 10.1 In recent years the government policy frameworks have been reducing core funding for local government as part of its deficit reduction strategy and increasingly incentivising funding to councils to deliver local economic and housing growth and to facilitate the development of strong, safe, healthy and self-sufficient communities. This is continuing, so encouraging and supporting both business and housing growth is essential to the financial future of the Council.
- 10.2 The Council recognised the changing funding landscape, the challenges and opportunities this creates and has developed a Medium Term Financial Strategy (MTFS) that responds to this challenge. The draft updated MTFS is attached at Appendix D and continues the direction of travel of the Councils in developing the business model to respond to the financial challenges.
- 10.3 The strategic response to those challenges, to ensure long term financial sustainability, is set out in six key actions:
- (a) Aligning resources to the Councils' refreshed strategic plan and essential services.
  - (b) Continuation of the shared service agenda, collaboration with others and transformation of service delivery.
  - (c) Behaving more commercially and generating additional income.
  - (d) Considering new funding models (e.g. acting as an investor).
  - (e) Encouraging the use of digital interaction and transforming our approach to customer access.

- (f) Taking advantage of new forms of local government finance (e.g. New Homes Bonus, Business Rates Retention).

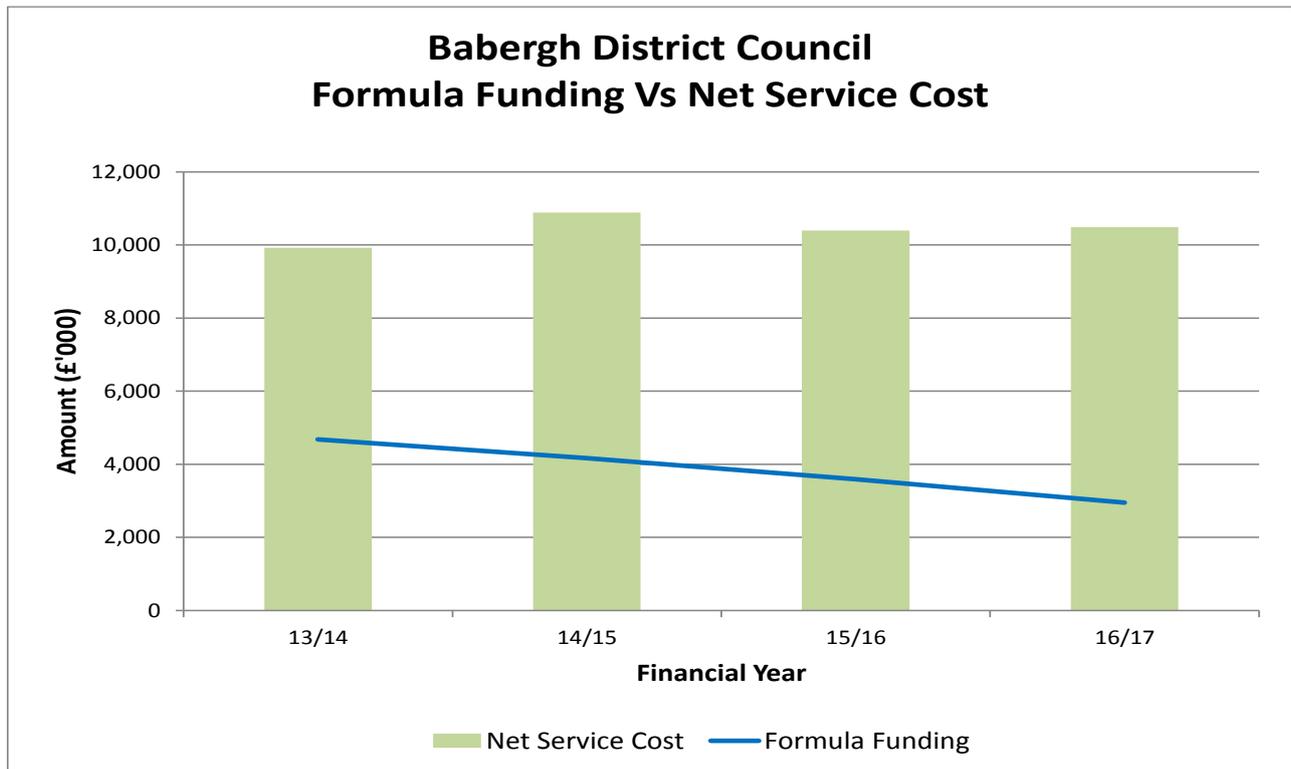

The actions that have been taken under this strategy, since 2014/15 mean that the Council is in a better position to withstand the reduction in government grant and achieve a balanced budget in 2017/18.

- 10.4 The details within the Joint MTFS show the funding surplus / pressures over the three years 2018/19 to 2020/21, the strongest financial position shows a surplus £0.2m, and the weakest financial position, a deficit of £1.9m and the level of resources that could be available to fund those pressures. This has been updated following the Local Government Finance Settlement announcement on 15 December.
- 10.5 In recognition of the changing landscape for local authorities, the Joint Strategic Plan has been reviewed and refreshed. Complementing this has been a focussed management review to ensure that the Council has the right skills and capacity to support the MTFS.
- 10.6 The Transformation Fund has been supplemented with New Homes Bonus and Business Rates Grant and used cautiously over the last three years to support the transition to the different business model and this will continue during 2017/18. It will also be used to fund staff that are involved in projects that support new ways of working.
- 10.7 Each Council is being asked to agree the key aspects of the proposed Budget for 2017/18 and endorse the draft Joint MTFS in order to achieve a sustainable financial basis in the medium term. Without this strategy, which focuses on achieving outcomes, invest to save and generating income, there is a significant risk that each Council will be unsustainable financially in the medium to longer term.

## **GENERAL FUND (GF)**

### **11 GF Financial Position**

- 11.1 Funding arrangements for councils have changed significantly over recent years with Revenue Support Grant being substantially withdrawn. The Council has seen a 65% cumulative cut in revenue support grant over the four years since 2013/14.
- 11.2 The Council's service cost budget has remained fairly static over the same period, as various budget saving and income generating initiatives have meant that service levels could be maintained. The Council has become reliant on Business Rates income and 'incentivised' funding such as the New Homes Bonus to support the Council's service cost budget. Since New Homes Bonus was introduced in 2011/12 the Council has received in total £6.4m, most of which has been used to balance the budget and the rest transferred to the Transformation Fund reserve.
- 11.3 The graph below shows the net service cost budget since 2013/14 and the Revenue Support Grant including the business rates element of the formula funding, over the same period.

11.4 Total Formula Funding (Revenue Support Grant + Baseline Business Rates) is reducing by a further 15% in 2017/18. This includes, in relation to the Revenue Support Grant element, a further cut of £488k or 49%. New Homes Bonus (NHB) is reducing from £1.779m to £1.212m. Further details of the Government's provisional spending announcement on the 15 December 2016 are set out below:-

- Continuation of the council tax referendum threshold at 2% for most authorities;
- All shire district councils and the lowest quartile of Police and Crime Commissioners will be able to increase council tax by the greater of 2% or £5;
- Parish and town councils will continue to not be subject to the council tax referendum
- Reduction in the number of years that a NHB payment is paid from 6 years currently to 5 years in 2017/18 and 4 years in 2018/19;
- NHB baseline for growth has been set at 0.4%, so only growth above that figure will receive a NHB payment in future;
- Continuation of the rural (SPARSE) services delivery grant;
- Full reimbursement from Government of the extension of the rural business rate relief to 100%. Babergh currently awards 40% discretionary relief on top of the 50% mandatory relief therefore there will be a financial benefit from this change. We are currently awaiting the new limits that will be effective from April 2017, therefore this has not been included within this report, but will be within the final budget report in February.

11.5 In order to receive certainty over the settlement numbers for the next three years from central government, councils were required to submit an efficiency plan.

Babergh District Council took advantage of gaining certainty for the next three years by submitting the Medium Term Financial Strategy and Joint Strategic Plan by way of demonstrating that the Council has an efficiency plan.

- 11.6 Looking ahead to 2018/19 and beyond, the Government's indication is that Revenue Support Grant will reduce to £204k in 2018/19, followed by a tariff payable to central government of £131k in 2019/20 to redistribute the core funding and council tax generating capabilities to other councils across the country based on spending needs.
- 11.7 Business rates and new homes growth will, therefore be the main sources of income (plus other income generated locally) if we are to achieve a sustainable budget in the years ahead.
- 11.8 It must be emphasised that the total estimated core funding for next year and future years is not a fixed guaranteed amount as it is now dependent on variations in business rates income. This is carefully monitored and the volatility and risks, for example, the level of appeals, will affect the amount of income received.

## **12. GF Overall Financial and Budget Strategy (short and medium term)**

- 12.1 In order to address the budget gap, both in the short and medium term the budget process for 2017/18 has involved several strands of work with the focus on maximising our income streams, continuing to make efficiencies and productivity savings and using new ways of working to be as cost effective as possible.
- 12.2 Finance has worked closely with Corporate Managers and reviewed each budget in detail and taken a zero based budget approach for each service, challenging budgets and focussing on the service needs rather than a historic view that has traditionally occurred.
- 12.3 The Corporate Manager for Finance and the Senior Business Partner have attended all the services team meetings to discuss the funding challenges and to explore and capture ideas they have for savings, efficiency and income generating ideas.
- 12.4 These suggestions along with a great deal of work that is already happening across the Councils on the Capital Investment Strategy, Public Realm Review, Leisure Strategy Review and the Public Access Transformation and Accommodation Review were reviewed at the relevant Portfolio Holder briefings. The items that have been included in the base budget are shown on Appendix B
- 12.5 Further work will continue on these and other initiatives during the year as set out in the draft Medium Term Financial Strategy (MTFS) at Appendix E, some of the strands that require further work at this stage are:
  - Accommodation – the 2017/18 budget report includes the savings as per the business case report (S63) approved at Council 20<sup>th</sup> September. The costs and savings of the Public Access work will continue throughout the next 12 months and will be monitored and reported through the budget monitoring process. The final full year costs and savings will be incorporated in the 2018/19 budgets that will be set in February 2018.

- Public Realm Review – included in the 2017/18 budget as shown in appendix B is a 10% reduction to the landscape group contract and waste disposal costs of £134k. However work continues on options appraisal through the Task and Finish Group.
- Leisure Review – work is progressing on the Leisure Review and at the time of preparing the budget for 2017/18 the Council has not reviewed or made decisions on any proposals. This work will continue and options will be considered toward the end of 2016/17 and into 2017/18.

12.6 Some key pieces of work during 2016/17 have contributed to the Councils financial sustainability over the short to medium term. In July, Strategy Committee approved the purchase and undertaking of Borehamgate shopping centre. The net rental income expected from this is £314k per annum. The remainder of the £10m cash investment that was approved as part of the Councils Treasury Management Strategy is expected to be invested in the final quarter of 2016/17, the projected return from this is £113k per annum. The decision taken in February 2016 to increase the Council Tax by £5 has enabled the Council to maintain the range of services it delivers.

12.7 In November 2016 both Councils approved the three strands of the Assets and Investment Strategy, comprising Investment (profit for purpose), Regeneration and Development, and Asset Management, in 2017/18 this is expected to generate £216k.

12.8 There are several assumptions within the MTFs that can significantly impact on the Councils financial position over the medium term, New Homes Bonus, Council Tax and Tax Base are some of the key assumptions. Within the MTFs at Appendix D we have modelled the best, medium and worst of these and other assumptions. The budget gaps of each are as follows:

		2017/18 Cumulative Shortfall in Funding (Surplus funds) £000	2018/19 Cumulative Shortfall in Funding (Surplus funds) £000	2019/20 Cumulative Shortfall in Funding (Surplus funds) £000	2020/21 Cumulative Shortfall in Funding (Surplus funds) £000
Weakest Financial Position	Tax Base 0.4% Council Tax 0%	43	558	1,490	1,934
Medium Financial Position	Tax Base 1% Council Tax 2%	43	190	699	844
Strongest Financial Position	Tax Base 1.5% Council Tax £5	43	101	331	(169)

12.9 Council Tax income is set locally (within Government guidelines) and has an impact on the income the Council can generate. A 1% increase in Council Tax will generate an additional £48k per annum

### 13. GF 2017/18 Draft Budget

13.1 The original budget gap for 2017/18 as identified in the MTFs approved by Council in February 2016 was £1.1m. After taking into account additional budgetary pressures including inflation and the work outlined above, the revised deficit is £43k, work will continue to close this gap during January, with a revised position being presented to this Committee in February. A summary of savings and pressures can be found at Appendix B.

- 13.2 In order to achieve a balanced budget for 2017/18 Babergh have had to utilise all of the £1.212m of New Homes Bonus expected in 2017/18 and S31 grant – a total of £1.862m compared to £1.8m required in 2016/17.
- 13.3 A number of key assumptions have been made in formulating the draft General Fund Budget proposals. The overall picture is set out in Appendix A with further detail in Appendix B of which some of the key aspects are outlined below:-
- A Council Tax increase in the Band D Council Tax of £5 per annum (10p per week) for a Band D property, which takes it to £153.86 and equates to a 3.4% increase.
  - Certain fees and charges e.g. land charges, but excluding car parking, increased by 3%.
  - Insurance premiums are expected to increase by 2% based on the information provided by our brokers.
  - For salaries we have assumed a 1% pay award and an increment for all staff that are eligible.
- 13.4 The figures relating to the draft Budget shown in Appendix A are provisional and are still being reviewed. They will be finalised for the February Budget report. Subject to this, the key changes between the 2016/17 and 2017/18 Budgets are summarised in Appendix B. In order to provide further details on the 2017/18 budget, a full breakdown can be found in the form of the Council's draft Budget Book attached at Appendix F.
- 13.5 In relation to earmarked reserves, the estimated balance of earmarked reserves at the end of 2017/18 is £3.7m, including the Transformation Fund balance of £2.7m. Further details of the earmarked reserves can be found in Appendix E. In addition to this there is £1.2m, the minimum approved level, in the General Fund reserve/working balance.

## **14 GF Capital Programme Investment**

- 14.1 The draft Capital Programme is attached at Appendix C. .
- 14.2 A zero-based approach has been adopted for the preparation of the Capital Programme for 2017/18 to 2021/22, to ensure that resources are aimed at delivery of the Council's strategic priorities. The figures for 2018/19 to 2021/22 will be further validated before the final report in February.

## **HOUSING REVENUE ACCOUNT (HRA)**

### **15 HRA Financial Position**

- 15.1 The HRA Business Plan has been updated to reflect the impact of the 1% rent reduction required by the Chancellor of the Exchequer in 2016/17 for 4 years across the Plan's 30 year life. The Business Plan is attached at Appendix D and shows additional detail for years 1-10.

- 15.2 The self-financing regime replaced the old Housing Revenue Account subsidy system on 1 April 2012. Babergh's settlement payment was calculated at £83.6m based on projected income, expenditure and existing stock values. This took HRA long term borrowing to £89.6m.
- 15.3 HRA Capital Financing Requirement levels are predicted to be £84.8m at 31 March 2017 providing borrowing headroom of £13.1m. New build/acquisitions funding within the Capital Programme 2017 – 2021 totals £14.1m and HRA reserve balances 2017 – 2021 are forecast at £4.4m. This will provide a total HRA Investment Fund contribution of £31.6m to deliver Members strategic housing priorities and outcomes (or, in relation to the HRA reserve balances, to set aside provision for future maturity debt repayment).
- 15.4 The Joint Strategic Plan sets out clearly the Councils' aligned strategic priorities. The key housing projects supporting delivery of the priorities are outlined in the HRA Business Plan, which will be presented to Strategy Committee in February 2017.
- 15.5 For example: The delivery of the Homes and Communities Agency (HCA) 27 new affordable homes, and acquisition of 5 affordable homes (2015/16), which will become new HRA assets. These new homes will deliver New Homes Bonus for the Council, additional rent and council tax and local businesses will benefit. All these factors will bring growth to our local economy.

## **16 HRA Overall Financial and Budget Strategy (short and medium term)**

- 16.1 The Babergh HRA Business Plan presents a positive financial picture over the longer term (a thirty year period as required under the self-financing regime) but there are short to medium term challenges. These challenges were exacerbated by the proposals announced in the Chancellor's July 2016 Budget:
- The Welfare Reform and Work Bill includes a requirement for all social landlords to reduce their rents by 1% each year from 2016 to 2019
  - This Bill reduced the benefit cap for working age families from £23k to £20k
  - The Housing and Planning Bill includes requirements for households with an income higher than £30k to be charged higher rents. However in the Autumn Statement 2016 this amount was amended to £60k and changed it from being a mandatory policy to discretionary.
  - This Bill also requires councils to sell their high value council homes to fund Right to Buy discounts for housing association tenants. A letter from the Housing Minister following the Autumn Statement explained that the pilot scheme for housing association Right to Buy will be expanded. The government will fund the expanded scheme and the levy will not be brought in for 2017/18. Details of how the levy will be calculated are still unknown. On the advice of the Chartered Institute of Housing the budget does not include a figure for the levy.
  - The impact of these measures and the action required to mitigate them are described in section 18.4 of this report

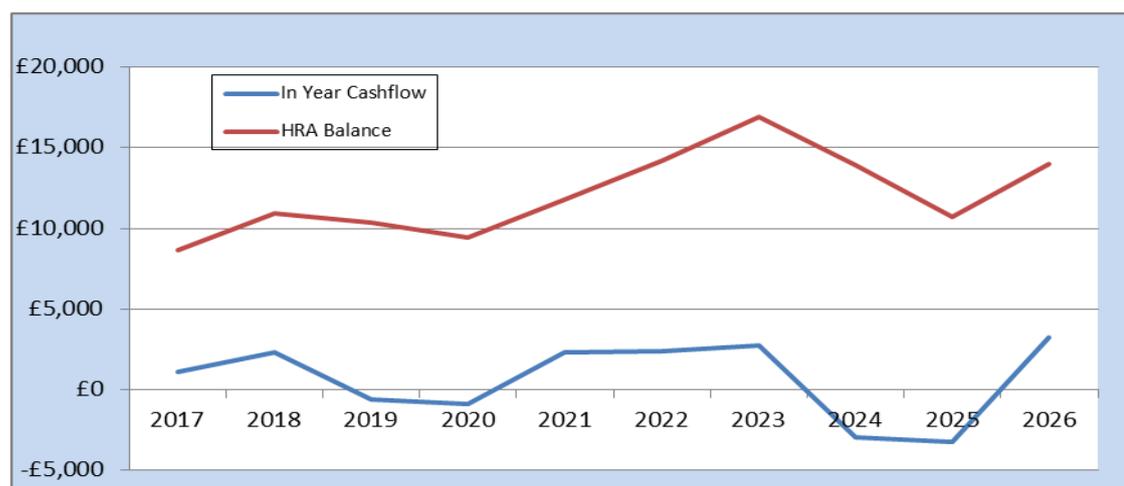

## 17. HRA Potential Resources Available for Investment

17.1 A key aspect of the business plan is the revenue cash flow predicted over the coming years. Another important feature is the amount available for building new homes. Both are illustrated in the following graphs:-

### Graph A - Revenue cash flows from 2017/18 for 10 years

This graph shows reserve balances within the HRA increasing to approximately £13.9m by Year 10 (2026/27) based on annual rent decrease of 1% for the next three years.

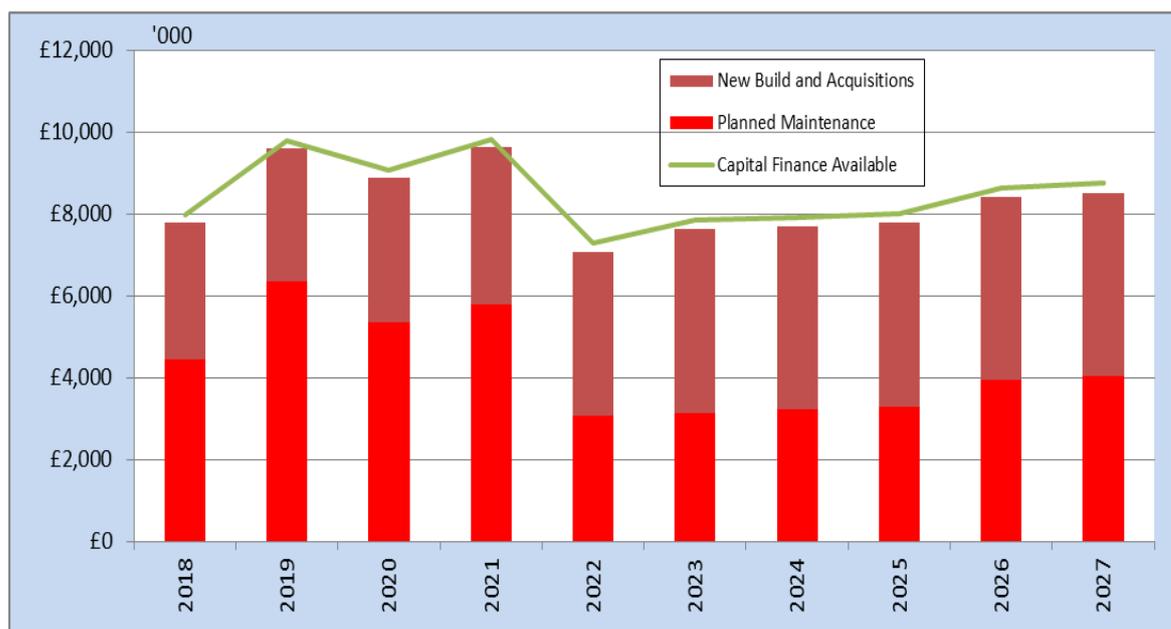

### Graph A

### Graph B - Capital Programme from 2017/18 for 10 years (based on a 1% rent reduction in years 2 to 4)

This graph shows proposed Capital Programme expenditure and debt cap levels within the HRA Business Plan up to Year 10 (2017/18 to 2026/27). The HCA new build programme does not extend beyond year 2, although significant investment continues through the Right to Buy replacement programme. Graphs A and B are inter-dependent with revenue surpluses providing financial availability for investment in homes and improvement programmes.

## Graph B

## 18 HRA Key Challenges

- 18.1 HRA Self-financing has provided significant opportunities for Babergh. The development of 27 new council homes supported by Homes and Communities Agency Grant funding and acquisition of 5 affordable homes is a good example of how the funds available within the HRA are being used differently.
- 18.2 These opportunities, however, are threatened by the proposals described in paragraph 16.1. The table in paragraph 19.1 sets out the draft HRA budget for 2017/18 and highlights the variances from the current year as a result of a 1% rent reduction (an average rent reduction of 90 pence per week for Babergh tenants).
- 18.3 It is important to understand that the 30 year HRA business plan was predicated on an annual rent increase of CPI + 1%, the formula agreed by the government in 2014. In business planning terms, the loss to the HRA is therefore greater than 1% per annum. The cumulative impact of the rent reduction results in a reduced income (against business plan projections) to the HRA as follows:

Year 1:	£ 0.3m
Years 1 to 4:	£ 4.5m
Years 1 to 10:	£18.1m

- 18.4 A balanced budget has been achieved for 2017/18 by reducing both revenue and capital budgets (see table in 19.1). A fundamental review of the housing service has been undertaken during 2016/17 to identify savings, efficiencies and income generation opportunities that will achieve a sustainable business plan into the future. The review has examined:

- Performance management measures and complaints handling

- New build programme and retention of Right to Buy receipts. An increase of £1.5m to Capital spend on New Build and Acquisitions would increase the amount to £5m and enable different ways of increasing affordable homes to be looked at.
- A review of garages was commenced to identify their condition and whether there are redevelopment opportunities on the sites or if they should be demolished and replaced with parking bays. 24 sites were identified as having development potential. These are being further explored by the Investment & Development Team who will report to the Joint Housing Board early in the new year.
- Our approach to HRA business planning includes, reviewing and realigning housing stock condition data and capital programme expenditure. Our current stock condition data is six years old. A project is underway to renew the data to enable an evidence based programme of capital works to be designed for 2017/18 and the following two years. In the meantime, all non-essential work has been ceased. We believe a fresh sample stock condition survey will be required in 2019/20. A contingency amount, based on the HRA Business Plan model, has been put into the 2017/18 Budget and four year MTFs 2017/18 and will be allocated against the relevant areas of spend once the Capital Programme is completed. Babergh's capital spend is predicted to come in at £1.3m below Budget in 2016/17 as a result of the change in policy.
- The Sheltered Housing Review concluded that some schemes which are difficult to let would be 'de-sheltered' ahead of a predicted reduction in Housing Related Support funding.
- Reviewing the existing Capital Projects Team (formerly part of the Asset Management Team) and Private Sector Housing Team has brought them together in one team called Property Services. This has led to a change in the way the work is being carried out and how the teams are structured to introduce a more efficient and consistent way of working. The new structure will be in place by March 2017.
- Councillors approved the formation of a new Babergh & Mid Suffolk Building Services (BMBS) team, which will carry out responsive repairs and programmed works. The BMBS business plan forecasts a surplus in year two of trading (2018/19). The back office team structure is currently under review, along with the Property Services team.
- A new HRA Accounting Team was set up following the appointment of a Professional Lead HRA Accountant in July 2016. A review of the budget setting and monitoring process, financial controls, support required by Corporate Managers and the Assistant Director and capital spend will be completed by March 2017.
- Leaseholders service charges are being reviewed to identify the gap between costs incurred and the amount recharged. This is currently ongoing and will be completed in 2017/18 so any increase in income identified has not been put into the 2017/18 Budget.

18.5 **Sheltered housing** - Babergh District Council has historically subsidised sheltered service charges from the HRA by approximately £400k each year. The new pressures of rent reduction and the high value asset levy make this subsidy unsustainable. A review of the service charges is being undertaken by an external resource to identify the costs that should be recharged. The consultants work so far shows the following additional income using a range of caps: -

Table 1

Weekly/Annual	Total per Scheme if 30% increase but £4 Cap	Total per Scheme if 25% Increase but £3 Cap	Total per Scheme if 20% Increase but £2.50 Cap
<b>Weekly Total</b>	<b>1,384</b>	<b>1,038</b>	<b>865</b>
<b>Annual Total</b>	<b>71,968</b>	<b>53,976</b>	<b>44,980</b>

18.6 **Garage rents** – these are not controlled by the same regime as council house rents. Members therefore have the option to impose a rent increase and may wish to take the opportunity to raise additional income through this route. Table 2 provides details of the additional income generated by a range of rent increases.

Table 2

Increase	Average increase per garage per week	Additional income per annum
	Pence	£
<b>CPI + 1% (1.90%)</b>	<b>17</b>	<b>4,928</b>
<b>5% Increase</b>	<b>44</b>	<b>12,969</b>
<b>10% Increase</b>	<b>88</b>	<b>25,939</b>

### **HRA New build programme and retention of Right to Buy receipts**

18.7 Right to Buy (RTB) sales for both councils have been less than projections in business plans. In 2015/16 Babergh sold 21 against original projections of 24 sales.

18.8 The money received from RTB sales can only be used as 30% towards the cost of a replacement home. The remaining 70% of the replacement cost has to be found from other HRA resources. As sales increase, it means that the level of match funding required (70%) increases. If the receipts are not spent within the 3 year period allowed, they have to be repaid to Government with 4% above the base rate interest added.

18.9 The Government has applied a cap to the amount that Councils can borrow through the HRA. This means that borrowing levels are artificially restricted. The supported spending of RTB receipts, building new council homes and investing in the maintenance and improvement of council homes is still achievable within current borrowing headroom. However, the 1% rent reduction and the proposed high value dwellings levy threaten to make finding the 70% match funding for Right to Buy receipts unsustainable; although the rescinding of the mandatory pay to stay policy referred to in 16.1 may mitigate this risk as tenants are less likely to feel forced to exercise their Right to Buy.

## 19 HRA Draft Budget 2017/18

19.1 The table below sets out the draft HRA budget for 2017/18, based on a 1% rent decrease, highlighting the variance from 2016/17.

Description	2016/17 £000	2017/18 £000	Variance £000	Reason
Rent and other income	(16,849)	(16,739)	110	Based on a proposed average rent decrease of 1%. Offset by decrease in void days and changes in service charges and garage rents
Bad Debt Provision	75	75	0	Universal Credit is due to come in Feb 2018 so we can keep this at the same level.
Interest	(15)	(17)	(2)	
<b>Total Net Income</b>	<b>(16,789)</b>	<b>(16,681)</b>	<b>108</b>	
Repairs and Maintenance, Management and other costs	5,376	5,479	103	Reflects review of all costs.
Capital Charges	2,824	2,803	(21)	Reflects interest costs on fixed rate long term loans which has reduced as £500k paid against debt.
Revenue Contribution to Capital Programme	2,540	4,354	1,640	Major Repairs Allowance does not cover the Capital spend so additional RCCO is required
Depreciation	2721	2721	0	
Debt Repayment	500	500	0	
<b>Total Expenditure</b>	<b>13,961</b>	<b>15,858</b>	<b>1,897</b>	
In-year operating (surplus)/deficit	(2,828)	(823)	(2,005)	
Year-end transfer to/from reserves	2,828	823	2,005	
<b>Total</b>	<b>0</b>	<b>0</b>	<b>0</b>	

19.2 A revised and updated HRA Business Plan is attached at Appendix D, based on annual rent reduction of 1% also reflecting;

- HCA scheme development costs;
- Funding to support spend of RTB receipts and capital programme expenditure.

- 19.3 The currently approved HRA Business Plan assumed projected rent increases at 3%. This assumption was based on CPI being 2%. CPI in September 2015 was -1%. The effect of this for Babergh is an average reduction in weekly rent of £0.91 per dwelling and £3,105 income per week.
- 19.4 The established rent formula empowers Government to restrict our ability to increase rents through applying a 'limit rent' this is the average rent level at which full housing benefit will be paid. If our average rent exceeds this amount then a payment has to be made to the Government to make up the difference. Limit rent figures will be released at the end of January 2017. This could still have an impact on rent levels in addition to the -1% change required.

## 20 HRA Capital Programme Investment

- 20.1 The draft Capital Programme is attached at Appendix C.
- 20.2 The proposed Capital Programme headlines (not including additional £2m) for 2017 – 2021 are:-

<b>Expenditure</b>	<b>£m</b>
Housing Maintenance Programmes	<b>22.7</b>
New build (HCA programme)	<b>0.3</b>
RTB receipt funding	<b>13.8</b>
<b>Total</b>	<b>36.8</b>
<b>Financing</b>	
Capital receipts disposals and RTB receipts and HCA Grant	<b>7.9</b>
Revenue Contributions	<b>28.9</b>
Borrowing	<b>0</b>
<b>Total</b>	<b>36.8</b>
Remaining Borrowing Headroom available (31 March 2021)	<b>18.1</b>

## 21. Appendices

<b>Title</b>	<b>Location</b>
