| Post Office Relief | 9 | 32,250 | 14,974 |
| Petrol Filling Station Relief | 4 | 36,050 | 16,559 |

Notes

- Those that qualify for 100% Small Business Rate Relief (SBRR) are those with rateable values below RV £12,000 and they must satisfy the other criteria. Those that receive relief on a sliding scale of between 1% and 100% are those with RV's between £12,000 and £15,000. For MSDC this is 63 receiving relief out of a possible 163 cases. The cases that do not qualify for SBRR could be because they are responsible for more than 1 property or the property could be empty.
- There are an additional 520 properties that have rateable values of between £15,000 and £51,000 – these fall out of the SBRR category but will still qualify (where applicable) for reduced business rates because their rateable value is multiplied by the lower multiplier.
- There will be some properties that appear in more than 1 category. An example of this would be a property that appears in both the 80% mandatory relief and 20% discretionary relief categories.
